EXECUTIVE SUMMARY

Our six-year plan and the retirement that follows

Stacey’s Career Transition Plan takes us through 2031 to full joint retirement in 2032, while we complete the renovation and continue to save.

THE PLAN THROUGH AGE 95

In the updated 5% compound return simulation, all 10,000 joint paths funded the plan through age 95 without using the house. Pensions and expenses follow modeled schedules; Stacey’s budget follows Ian reaching 95.

HOME RENOVATION	TRANSITION RESERVE	2032 INVESTMENTS	2032 CASH SURPLUS
$56,000	**$31,000**	**$1.99 million**	**$1,557 monthly**
2026–27 building work	At start of January 2029	Projected year-end balance	After tax and household spending

Our transition

2027–28 | Employment and preparation. Stacey remains employed on a $205,469 annual salary from February 2027, after estimated January pay of $36,862. Save $500/month plus $6,100 extra in 2027; $1,575/month in 2028. Building work is modeled in 2027; the HELOC is repaid in 2028.

January–June 2029 | The transition. Pensions continue and Medicare begins. The transition reserve covers the period before the first July payment. Mortgage payments continue.

July 2029–2031 | Annual payments. Stacey receives $205,469 each July, with after-tax cash held in Trust Cash for spending. Our $2,560 monthly mortgage payment, including a $1,000 overpayment, ends in December 2029.

2032 onward | Joint retirement. With no further CTP payments, our income comes from pensions, deposit interest and retirement withdrawals.

Our life in retirement

Travel and healthcare. The 2032 budget includes $23,254 for vacations and $27,711 in external healthcare premiums.

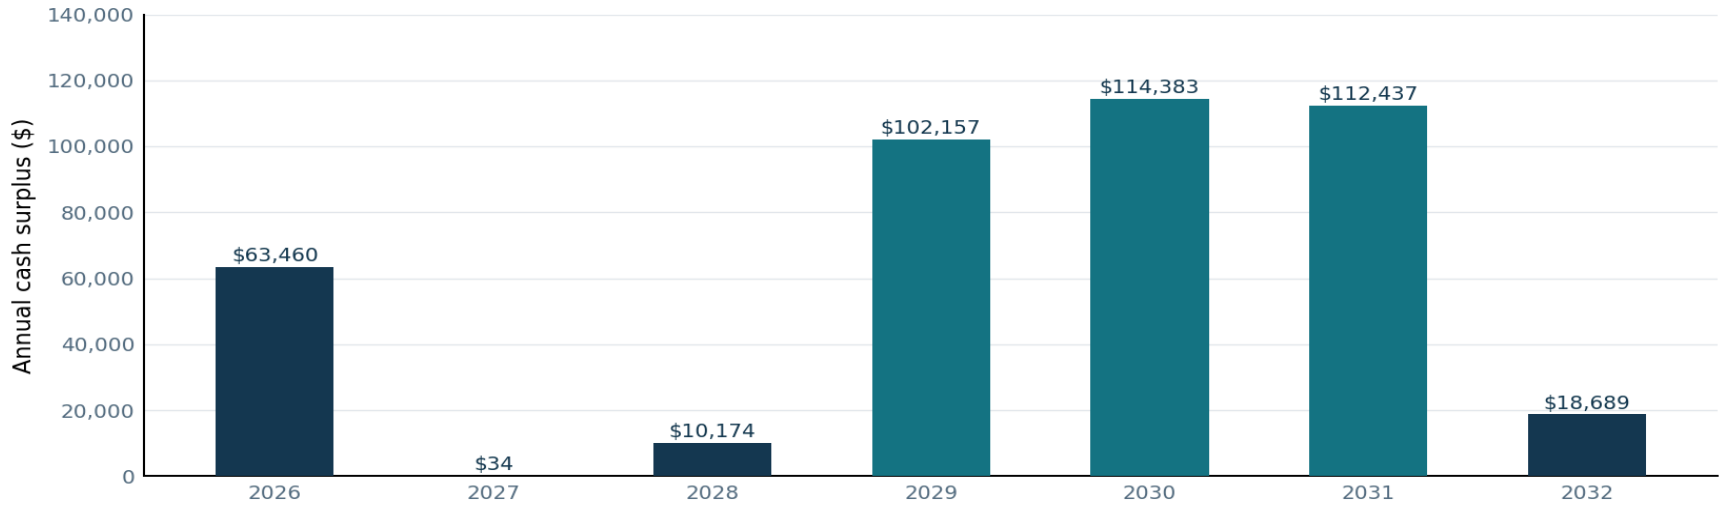

Income and investments. Gross US and UK pensions are $122,929 in 2032. The year-end investment forecast is $1.99 million.

Cash and savings. End-2031 Trust Cash is $343,837, including earmarked amounts. The 2032 cash surplus includes retained interest and its associated tax.

Planning assumptions and items to review: Appendix A, page 25. Appendix guide: page 24.

Cash surplus after spending and planned savings

Calendar-year totals include tax and the estimated interest on CTP cash. The 2029 amount includes the benefit of the reserve used in January-June.

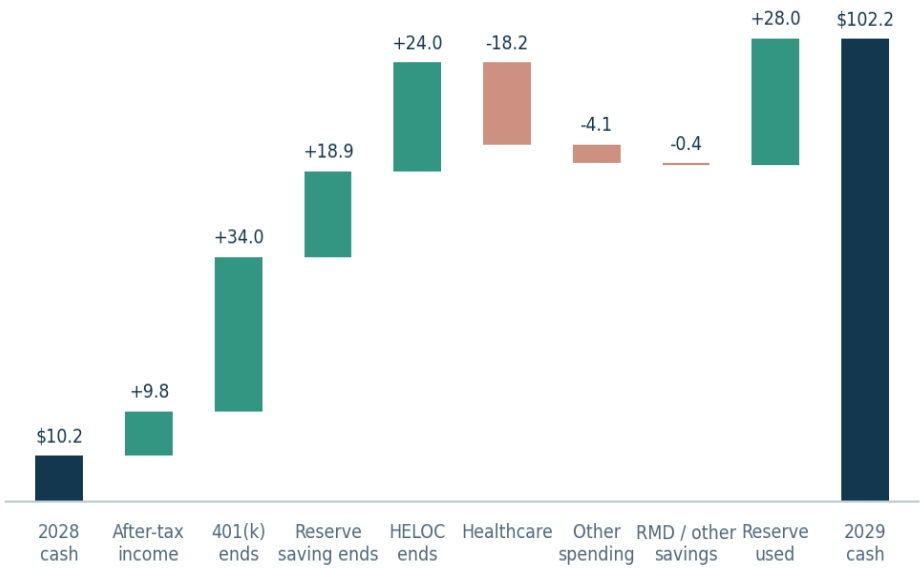

The 2029 bar includes $27,976 drawn from the transition reserve. Some Trust Cash is needed for bills before the next July payment.

The chart includes modeled Trust Cash interest and the associated income tax. Trust Cash at end-2031 is $343,837, including earmarked amounts.

WHY CASH SURPLUS CHANGES

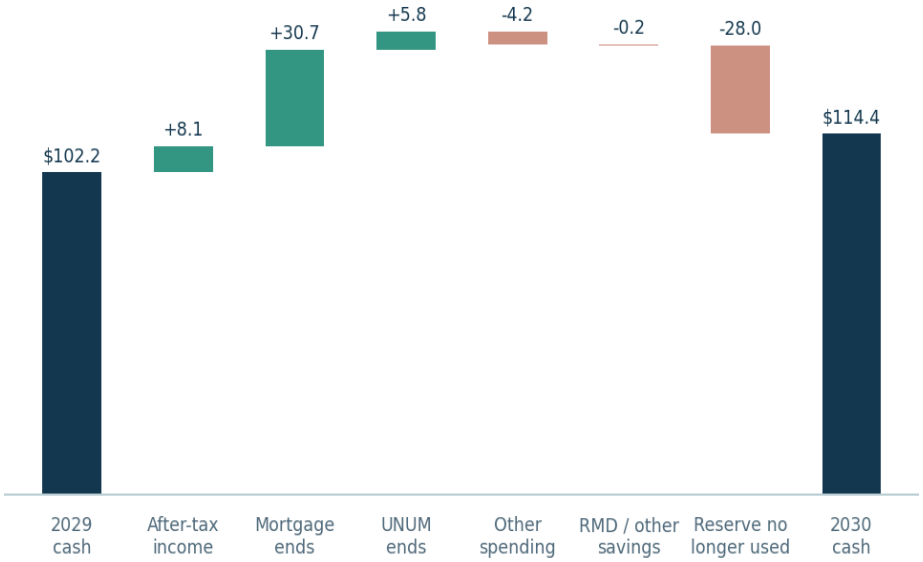

Annual household cash after taxes, spending and planned savings

2028 to 2029 | First CTP payment

All values in $1,000s

2029 to 2030 | Mortgage paid off

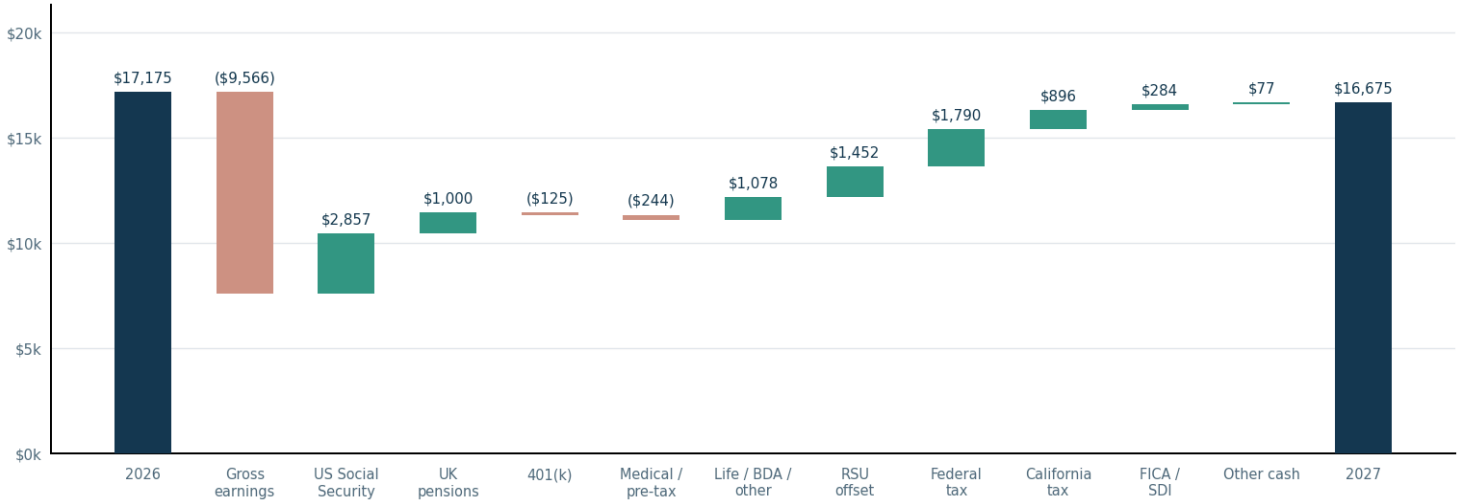

All values in $1,000s

Planned savings are amounts set aside for a purpose, including 401(k) contributions, net RMDs saved to brokerage and the transition reserve.
Cash surplus is the amount left after tax, household spending and those planned savings. In 2028, planned savings are $64,847 and surplus is $10,174.
In 2029, $27,976 of existing transition reserve is used. Both charts include modeled Trust Cash interest and its related tax.

The first CTP employment year

Lower compensation is offset in part by the start of Stacey's pensions, lower tax and changes in payroll deductions. Net RMD proceeds are saved rather than spent. This comparison is before household expenses and transition-reserve contributions.

Income effect	Annual change	Monthly change
Lower gross employment earnings	($114,792)	($9,566)
Change in US Social Security	$34,286	$2,857
Change in UK pensions	$12,000	$1,000
Change in 401(k) contributions	($1,500)	($125)
Change in medical / other pre-tax costs	($2,924)	($244)
Life, disability, BDA and other costs	$12,941	$1,078
Change in RSUs retained outside cash	$17,423	$1,452
Federal tax change excluding RMD	$21,484	$1,790
CA tax change excluding RMD	$10,748	$896
FICA / SDI change	$3,413	$284
Other cash income change	$919	$77
2027 COMPARABLE INCOME	**$200,099**	**$16,675**

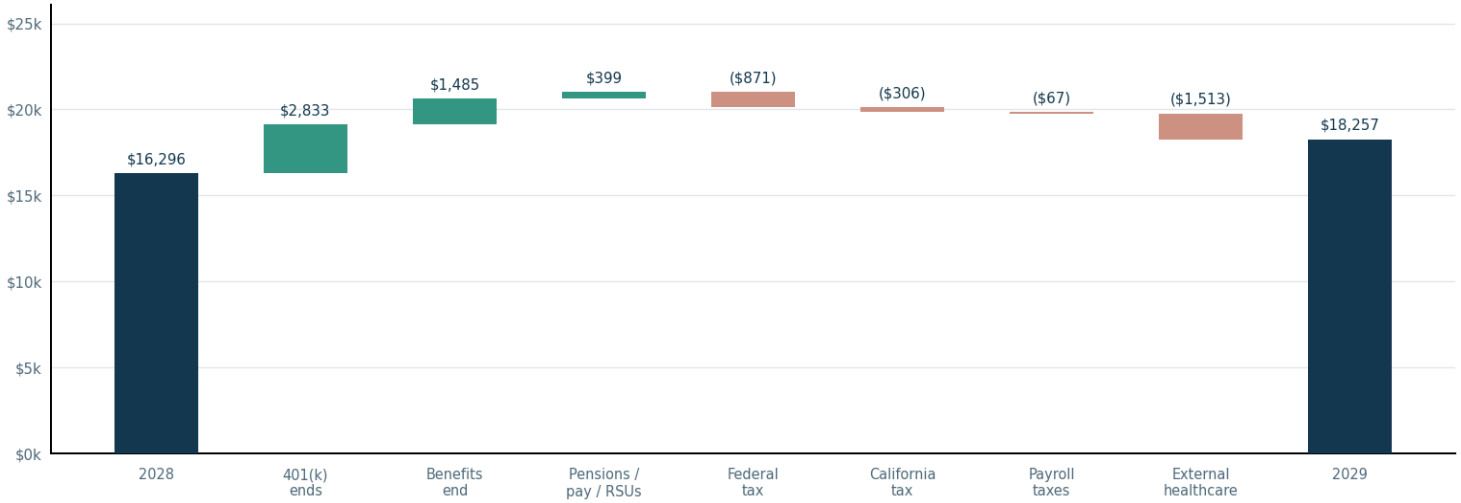

Comparable monthly income: $17,175 in 2026 and $16,675 in 2027. Amounts are after tax, healthcare and net RMD savings, before household living costs.

Net RMD proceeds are saved through 2031. These comparisons exclude incremental tax and interest on Trust Cash.

Sources: workbook income comparison and annual tax sheets. Tax detail: Appendix D, page 33.

From salary to an annual payment

Annual compensation remains $205,469, but employee retirement contributions and company deductions end. External healthcare begins. The annual income level improves even though the first CTP cash does not arrive until July.

Income effect	Annual change	Monthly change
401(k) ends	$34,000	$2,833
Company deductions end	$17,822	$1,485
Pensions / pay / interest / RSUs	$4,788	$399
Federal tax change excluding RMD	($10,448)	($871)
California tax change excluding RMD	($3,677)	($306)
Payroll tax increase	($806)	($67)
New healthcare budget	($18,153)	($1,513)
2029 COMPARABLE INCOME	**$219,083**	**$18,257**

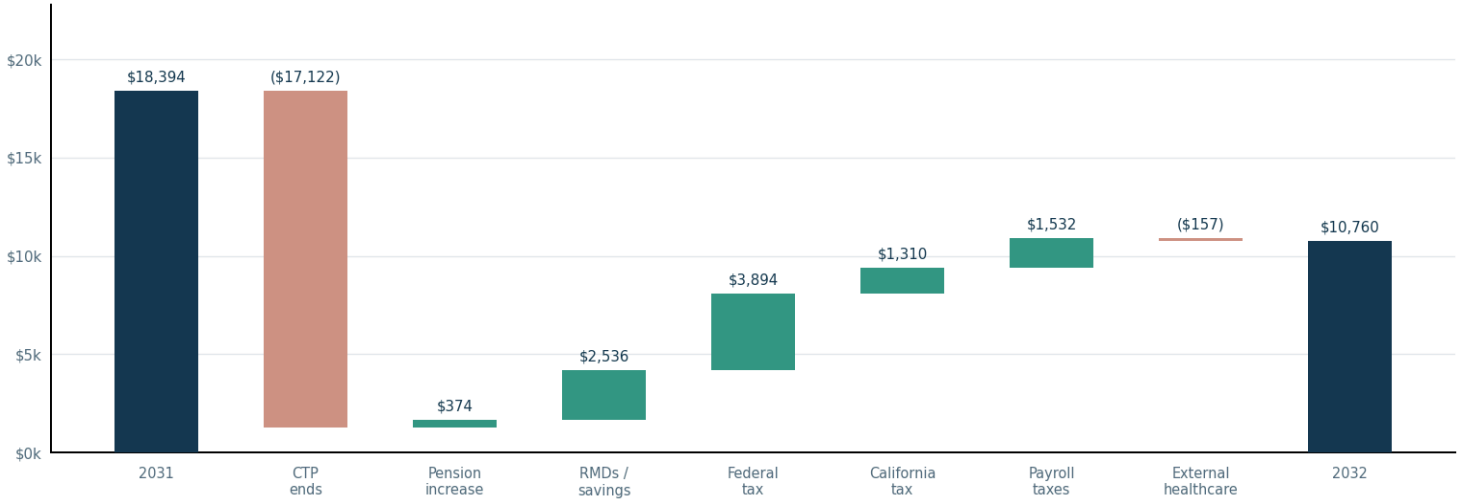

Comparable monthly income: $16,296 in 2028 and $18,257 in 2029. Amounts are after tax, healthcare and net RMD savings, before household living costs.

Net RMD proceeds are saved through 2031. These comparisons exclude incremental tax and interest on Trust Cash.

Sources: workbook income comparison and annual tax sheets. Tax detail: Appendix D, page 33.

After the final CTP payment

The $205,469 payment ends. Lower income and payroll taxes offset part of that change; net RMDs become available to spend. Both years are already mortgage-free. The household spending budget is assessed separately.

Income effect	Annual change	Monthly change
W-2 payment ends	($205,469)	($17,122)
Pensions increase	$4,490	$374
RMDs, savings and other income	$30,426	$2,536
Federal tax falls	$46,724	$3,894
CA tax falls	$15,718	$1,310
Payroll taxes end	$18,389	$1,532
Healthcare inflation	($1,886)	($157)
2032 COMPARABLE INCOME	**$129,116**	**$10,760**

Comparable monthly income: $18,394 in 2031 and $10,760 in 2032. Amounts are after tax, healthcare and net RMD savings, before household living costs.

Net RMD proceeds are saved through 2031. These comparisons exclude incremental tax and interest on Trust Cash.

Sources: workbook income comparison and annual tax sheets. Tax detail: Appendix D, page 33.

The transition to retirement

Annual cash flow by source; 2029 is split to show the funding gap.

Income and cash flow	2026	2027	2028	Jan-Jun 29	Jul-Dec 29	2030	2031	2032
Salary / CTP cash	$326,192	$225,208	$205,469	$0	$205,469	$205,469	$205,469	$0

CASH SURPLUS	**$63,460**	**$34**	**$10,174**	**$0**	**$102,157**	**$114,383**	**$112,437**	**$18,689**
Monthly surplus	$5,288	$3	$848	$0	$17,026	$9,532	$9,370	$1,557

RSUs retained as BAC stock are excluded from cash income. 2026 RSU proceeds were applied toward the HELOC.
Tax and payroll costs shown here exclude the amount covered from RSU proceeds or shares.
Net RMDs are included in planned savings through 2031; reserve funding comes from existing savings.
The budget includes renovation, mortgage overpayments, healthcare and vacations. Figures are rounded.
The 2026 cash surplus is a full-year baseline; it has already been spent and is not carried forward.

Annual reconciliation: Appendix E, page 34. Savings commitments: Appendix I, page 38. 2029 reserve schedule: Appendix J, page 39.

Our monthly household budget

Monthly averages for each year; 2029 is split into January-June and July-December.

Expense group	2026	2027	2028	Jan-Jun 29	Jul-Dec 29	2030	2031	2032
Housing and debt	$4,050	$5,742	$5,917	$3,950	$3,950	$1,425	$1,461	$1,497
Property maintenance and improvements	$333	$2,215	$0	$0	$0	$0	$0	$200
Food and personal, excluding buffer	$2,600	$2,600	$2,665	$2,732	$2,732	$2,800	$2,870	$2,942
Miscellaneous buffer	$0	$0	$0	$0	$0	$0	$0	$0
Transport	$653	$653	$669	$686	$686	$703	$721	$739
Utilities and household services	$1,035	$1,080	$1,094	$1,121	$1,121	$1,148	$1,176	$1,205
Subscriptions and leisure	$815	$857	$878	$900	$900	$923	$946	$969
Healthcare and personal insurance	$439	$439	$461	$2,096	$2,096	$1,743	$2,257	$2,417
Vacations	$1,626	$1,675	$1,725	$1,776	$1,776	$1,829	$1,883	$1,938
Carers	$325	$325	$325	$325	$325	$325	$325	$325
Total household spending	**$11,877**	**$15,585**	**$13,734**	**$13,586**	**$13,586**	**$10,896**	**$11,637**	**$12,231**
Monthly surplus after planned savings	**$5,288**	**$3**	**$848**	**$0**	**$17,026**	**$9,532**	**$9,370**	**$1,557**

Surplus is after tax, household spending and planned savings. It includes retained Trust Cash interest and related tax.

Payroll benefits through 2028 are included in payroll costs. External healthcare begins in 2029.

2026 is a provisional baseline. Amounts are rounded. See pages 9–10 for spending details.

Expense inputs: Appendix B, pages 26-29. Individual expenses: Appendix C, pages 30-32.

Our 2027 spending choices

Monthly averages in 2027 dollars | Both of us | Provisional classification

Income after tax $20,313 / month **Household spending $15,585 / month**

NON-DISCRETIONARY

Mortgage and overpayment	$2,560
Property tax	$1,083
Home insurance	$200

Costco membership	$6
BBC World News	$8
Amex annual fee	$31
TOTAL	**$4,039**

Total household spending: $12,231 **Surplus after planned savings: $1,557**

Food, wine and dining are kept together; some of this spending may be flexible.

The income and surplus include retained Trust Cash interest and the related tax.

Surplus is outside the spending budget. Rounded figures; individual items may not sum exactly when rounded.

Income and expenses through 2042

2032 gross income: pensions $122,929, gross RMDs $45,979 and deposit interest $13,182, totaling $182,089. The table shows annual future dollars and the final row in 2026 purchasing power.

Year	2032	2033	2034	2035	2036	2037	2038	2039	2040	2041	2042
Gross income	$182,089	$188,779	$195,720	$202,828	$210,456	$218,247	$226,497	$234,679	$243,360	$252,116	$261,205
Income tax	$16,628	$17,600	$18,617	$19,659	$20,815	$21,993	$23,269	$24,506	$25,850	$27,191	$28,635
Household spending	$146,772	$151,590	$148,604	$153,987	$159,400	$164,782	$170,688	$177,038	$182,874	$188,915	$195,141
Vacations included	$23,254	$23,835	$24,431	$25,042	$29,973	$30,722	$31,490	$32,277	$33,084	$33,911	$34,759
Cash surplus	$18,689	$19,590	$28,499	$29,183	$30,242	$31,472	$32,540	$33,136	$34,636	$36,010	$37,428
Remaining in 2026 dollars	$16,116	$16,480	$23,390	$23,367	$23,625	$23,986	$24,195	$24,037	$24,513	$24,864	$25,213

Pensions follow the workbook’s inflation assumption. Healthcare and carers follow their own schedules; RMDs vary with account balances. The forecast retains positive annual cash surplus in Trust Cash.

Gross income includes Trust Cash interest; income tax includes the related tax on that interest.

IN 2026 PURCHASING POWER

2032 household spending is $126,561 in 2026 dollars, including $20,052 for vacations.

Cash surplus is $16,116 in 2032 and $25,213 in 2042, in 2026 dollars.

Full forecast in 2026 purchasing power: Appendix H, page 37. Planning assumptions: Appendix A, page 25.

If one of us is living alone

Separate illustrations assume one spouse is alive from January 2032, with ownership of the traditional retirement accounts and access to the CTP deposit.

2032 annual	Ian alone	Stacey alone
INCOME		
Pensions	$66,775	$66,775
Required withdrawals	$50,228	$43,334
Deposit interest	$13,322	$13,222
Total income	**$130,325**	**$123,331**
EXPENSES		
Estimated income tax	$18,726	$16,656
Household spending	$93,566	$93,848
Including vacations	$9,677	$9,677
Total expenses	**$112,292**	**$110,504**
CASH SURPLUS	**$18,034**	**$12,826**

Vacations are included in household spending, not added to total expenses.

The itemised survivor budgets retain shared household costs and use each person's workbook assumptions for healthcare, personal spending, carers and travel. Social Security uses the modeled survivor benefit.

Income includes deposit interest and tax. Any shortfall is funded from the deposit as modeled in the workbook.

Planning assumptions: Appendix A, page 25. Tax calculation: Appendix D, page 33.

Living alone: income and spending through 2042

Separate illustrations assume the other spouse has died before 2032. Amounts are annual future dollars.
Income includes deposit interest and tax includes the additional tax on that interest.

	IAN ALONE						STACEY ALONE					
Year	Gross income	Income tax	Household spending	Vacation included	Cash remaining	Year-end deposit	Gross income	Income tax	Household spending	Vacation included	Cash remaining	Year-end deposit

2039	$172,829	$27,687	$114,761	$16,139	$30,381	$518,576	$162,036	$24,396	$112,752	$16,139	$24,888	$469,403
2040	$179,668	$29,167	$118,154	$16,542	$32,347	$550,924	$168,753	$25,805	$116,513	$16,542	$26,435	$495,838
2041	$186,766	$30,744	$121,657	$16,956	$34,365	$585,289	$175,375	$27,171	$120,402	$16,956	$27,802	$523,640
2042	**$193,494**	**$32,198**	**$125,275**	**$17,380**	**$36,021**	**$621,309**	**$182,707**	**$28,748**	**$124,398**	**$17,380**	**$29,560**	**$553,200**

Vacations are included in spending. Any modeled shortfall is funded from the deposit; cash surplus is after funding.

The year-end deposit includes cash accumulated in earlier years. Pension, healthcare, travel and carers follow the workbook's survivor schedules and assumptions.

Planning assumptions: Appendix A, page 25. Full retirement figures in 2026 dollars: Appendix H, page 37.

Investment accounts from 2026 to 2042

Starting balances, then modeled year-end balances. SIPP shown in US dollars at $1.30 per £1.

Existing deposit includes the transition reserve. Available Trust Cash combines the savings calculation and unallocated Trust Cash; expense earmarks are excluded from available Trust Cash. Balances are not additional to the underlying accounts.

From 2032 RMDs are withdrawn from retirement accounts. Through 2031, net RMDs are saved to brokerage.

Starting account balances and return assumptions: Appendix G, page 36.

Home value and renovation

Starting at $1.45 million in 2026, the home is projected to appreciate by 4% a year. At the end of 2028, a $200,000 estimated renovation uplift is added to the then-current value. The combined amount reaches about $2.07 million by the end of 2032.

Renovation budget	2026	2027	2028	Total
Planned spending	$4,000	$52,000	$0	$56,000

The mortgage is scheduled to be paid off at the end of 2029. Home value is shown separately from the accounts available to fund spending.

Expense inputs and timing controls: Appendix B, pages 26-29.

Three sources of financial value

Illustrative 2032 values: investment accounts and home equity at year-end; pension value at the start of the year.

Investment accounts

$1,991,217

Includes available Trust Cash; retirement balances are before withdrawal tax.

Home equity

$2,068,684

Estimated home value after the mortgage and HELOC are paid off.

Pension income value

$2,016,036

Present value of expected gross pension payments, including the modeled survivor benefit.

COMBINED ILLUSTRATIVE VALUE

$6,075,937

In 2032, gross pensions total $122,929: $95,775 US Social Security and $27,154 UK State Pensions.

The pension estimate assumes each lives to age 95, 2.5% annual pension increases and a 2% discount above inflation. It reflects the modeled survivor Social Security benefit; the benefit actually payable may differ. UK pensions stop on death.

Pension value represents income over time, not an account balance. Home equity is tied to the property. RMDs are not added to pension value because the retirement accounts are already included in investments.

Planning assumptions: Appendix A, page 25. Starting account balances: Appendix G, page 36.

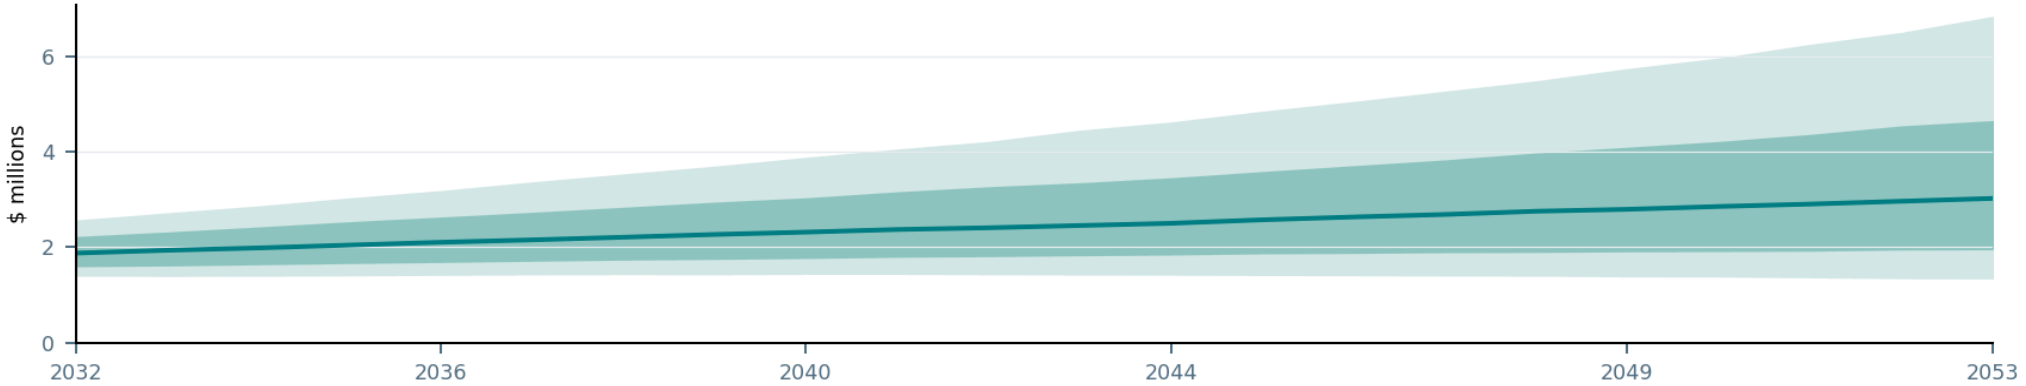

Monte Carlo through age 95

10,000 paths per scenario | Funded means spending and tax are met without using the home.

Compound target	Joint then Stacey	Ian alone	Stacey alone	Joint 10th pct.	Joint median
6.2% IRAs / 7% shares	100.00%	100.00%	100.00%	$2,006,908	$4,421,863
6% IRAs / 6.5% shares	100.00%	100.00%	100.00%	$1,813,311	$3,974,264
5% investments	100.00%	100.00%	100.00%	$1,364,630	$3,023,059
0% investments	91.50%	99.28%	89.70%	$26,646	$573,294

Joint, then Stacey | 5% compound investment target

10,000 / 10,000 funded

Median line; darker band: middle 50%; lighter band: middle 80%. Future dollars; retirement balances before withdrawal taxes.

Joint: both alive through 2049, then Stacey through 2053. Expenses follow the workbook schedules.

Working targets: IRAs 6.2%, shares and SIPP 7%; deposit 3.84%. Lower: IRAs / SIPP 6%, shares 6.5%.

Investment assumptions are compound targets; annual returns vary from 2027. The 0% case also varies.

Volatility: IRAs 12%, shares / SIPP 18%, BAC 30%. Returns are modeled estimates.

2027-31 other income and expenses are fixed; unexpected pre-2032 cash shortfalls are not simulated.

RMDs vary with account values; pre-2032 RMD tax uses an effective-rate approximation.

5% case, end 2032: median $1.87m; 10th–90th percentile $1.43m–$2.54m.

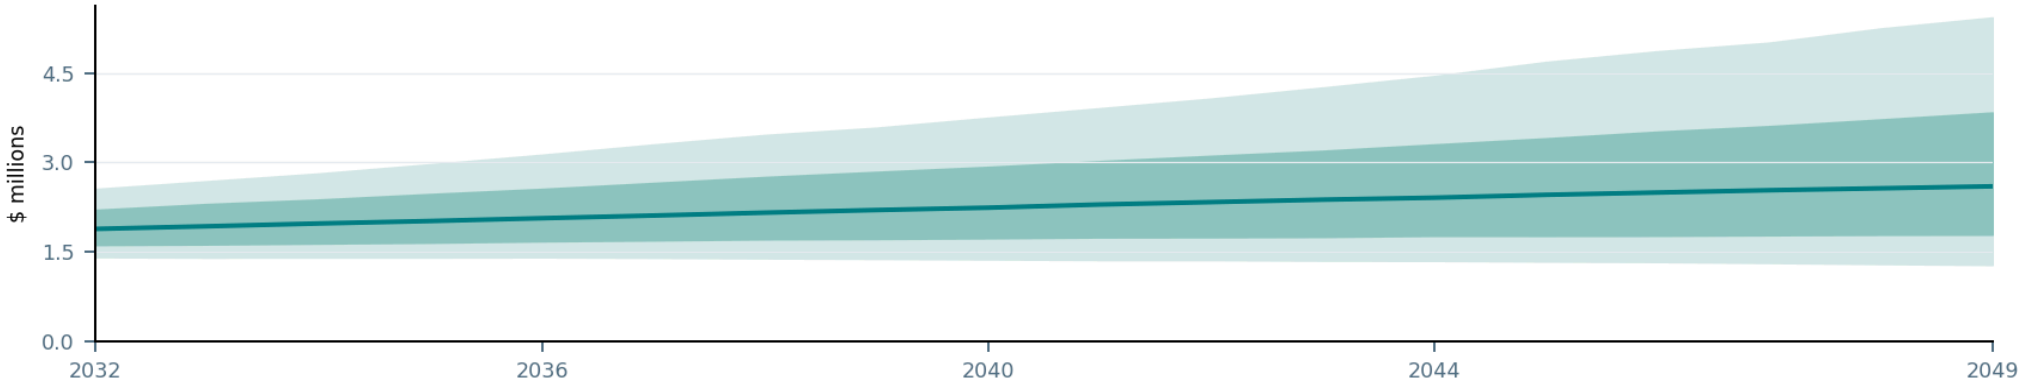

Planning assumptions and items to review: Appendix A, page 25.

If one of us is living alone

5% compound investment target | 10,000 paths | Through age 95

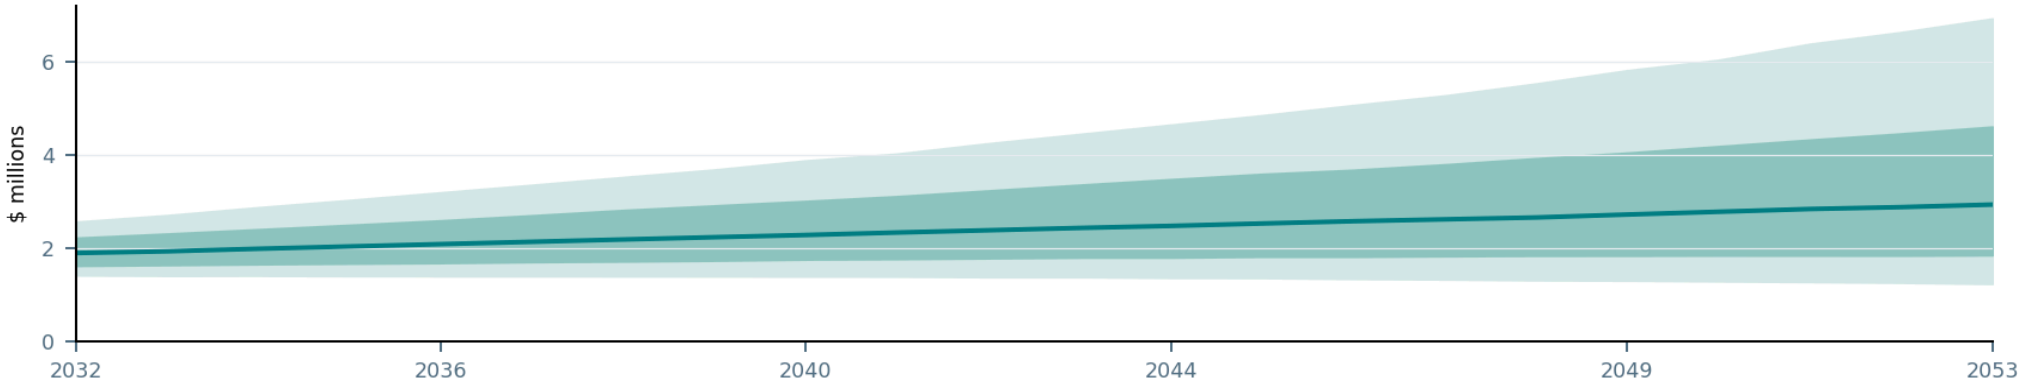

Ian alone from 2032

100.00% funded

Stacey alone from 2032

100.00% funded

Median line; darker band: middle 50%; lighter band: middle 80%. Funded means spending and taxes are met without using the home.
Ian reaches 95 in 2049; Stacey in 2053. Future dollars; retirement accounts before withdrawal taxes. Simulations are estimates.

Planning assumptions and items to review: Appendix A, page 25.

How we manage the plan

Use our existing accounts, keep the transition reserve separate and review progress regularly.

Organize the money

Household accounts. Continue receiving pensions and paying regular bills through our existing accounts.

Transition reserve. Keep the money for January–June 2029 separate and readily available. Build it with $500 a month in 2027 and $1,575 a month in 2028.

CTP surplus Hold cash from the July payments in Trust Cash. Allow for tax and transfer what is needed for spending between payments.

Investments. Keep accounts identifiable as shown on page 14.
Reinvest net RMDs in the Trust through 2031; from 2032, withdrawals are available to support spending.

January 2027 action.

Earmark the reserve separately within the trust cash account.
In January add $6,100 in addition to the $500 monthly transfer.
Set up the monthly automatic transfers shown opposite.

Review at least quarterly through 2032

Income: Check Stacey's pay and the annual July CTP payments.

Spending: Compare spending with the budget, especially healthcare and home costs.

Cash: Check the reserve and cash needed before and between July payments.

Investments: Review balances, account mix and return assumptions.

Tax and benefits: Check Social Security, tax payments and RMDs against the forecast.

Either of us alone: Review the individual scenarios after material changes.

Monthly transfers to trust cash

Allocation	2027	2028
Transition reserve	$500	$1,575
Property tax	$1,090	$1,117
Car registration	$78	$80
Household buffer	$0	$0
Car servicing	$50	$51
Building work	$2,215	$0
Total per month	**$3,933**	**$2,823**

Trust Cash returns funds to Joint for scheduled property tax, registration and building payments; these are transfers, not extra costs.

KEY CHECKPOINTS

Pay particular attention before January 2029 and after each July payment.
Rename the groceries account "Groceries and gasoline" and increase its monthly transfer by $200.

Accounts: page 14. | Savings: Appendix I, page 38. | 2029 reserve: Appendix J, page 39. | Further actions: page 20.

Our plan and next steps

Our retirement picture and the actions that keep the plan on track.

2032 HOUSEHOLD BUDGET

$146,772

Includes $23,254 for vacations

2032 CASH SURPLUS

$18,689

After income tax and household spending

2032 INVESTMENTS

$1.99 million

Projected year-end balance; includes CTP surplus

Actions and timing

2027 | Pay and benefits
Check payslips, withholding and Stacey's February payment for January; confirm whether the quoted benefit includes COLA.

Cash | Throughout the transition
Keep working cash separate from the 2029 reserve.

2027 uses $100 from savings; check the PG&E true-up.

RMDs | Each year
Confirm the amount with Merrill; reinvest net proceeds through 2031, then arrange withdrawals to support spending.

After employment | 401(k)
Review a direct rollover; route traditional and Roth portions to appropriate accounts.

Before 2029 | Healthcare
Check each person's Medicare status; arrange Part B, Medigap and drug coverage as needed.

Medicare costs | IRMAA
Check income-related charges and whether a work reduction or stoppage supports a request for reconsideration.

2029-31 | July payments
Confirm each payment arrives, W-2 withholding and tax timing; retain cash for bills between July payments.

Survivor access | Review
Review each survivor's income and spending; check beneficiaries and access to IRA, 401(k), SIPP and Trust accounts.

THE PLAN HAS BEEN TESTED

In the updated 5% compound return simulation, all 10,000 joint paths funded the modeled plan through age 95 without using the house. Results use the current workbook and compound return assumptions.
Individual scenarios: pages 12-13 and 18.

This is a planning forecast; investment outcomes and future costs will differ from the assumptions.

Planning assumptions: Appendix A, page 25. | Appendix guide: page 24.

How cash flows change

Monthly averages before deposit interest and related tax; January 2027 is exceptional.

Monthly average	2027	2028	Jan-Jun 29	Jul-Dec 29	2032
Income after tax / payroll	$20,313	$19,986	$9,956	$31,396	$13,069
Reserve / other funding	$8	$0	$4,663	$0	$0
Household spending	$15,585	$13,734	$13,586	$13,586	$12,231
Planned savings	$4,734	$5,404	$1,033	$1,033	$0
Cash surplus	$3	$848	$0	$16,777	$838

WHAT CHANGES

2027-28: Stacey is employed; net RMD proceeds are saved and the transition reserve is built.

Jan-Jun 2029: pensions and reserve withdrawals fund spending until the first July CTP payment.

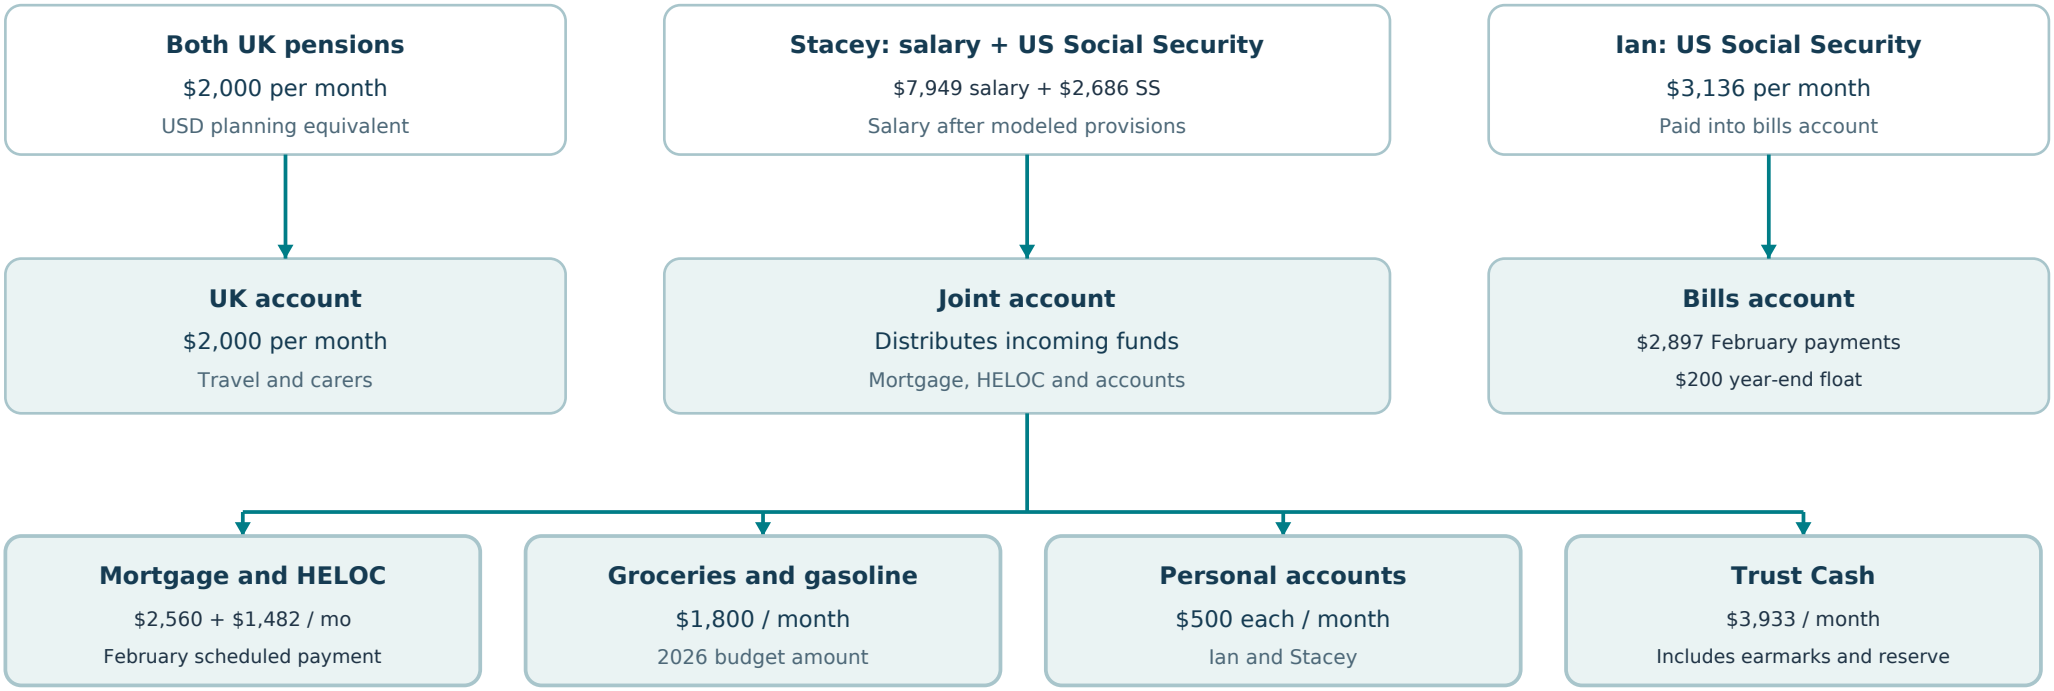

Jul-Dec 2029: the CTP arrives as a lump sum; its cash must cover bills between annual payments.

2032: pensions and RMDs provide income; salary and CTP payments have ended.

2027 includes $100 for the year from existing savings. Interest-inclusive results appear on pages 1 and 20.

How money moves between our accounts

2026 expense base | Normal February income | HELOC and reserve as planned

HOW THE AMOUNTS FIT

Bills receives Ian's Social Security and pays scheduled bills; cash timing varies.

Trust Cash transfers back to Joint for scheduled property tax, registration and building payments.

Transfers between accounts are not additional household expenses.

JANUARY 2027 January: $6,600 to transition reserve in total, including $6,100 extra.

NEXT STEP Retain the Bills year-end float; surplus goes to the HELOC while a balance remains.
Check payment dates and account balances before setting or changing transfers.

Salary figures are workbook estimates after modeled provisions. January differs from February.
HELOC payments vary with balance and interest; property-tax funding includes a planned HELOC draw.
Later-year account flows: Appendix N, pages 44-50.

2027 | Account-by-account monthly budget

2026 expense base | Normal February income | HELOC and reserve as planned

ACCOUNT NOTES

UK cash is for travel and carers.

Actual travel dates may vary.

February account movements are shown alongside monthly Bills inputs; irregular bills do not occur evenly each month.

January includes $6,100 extra for the reserve and no extra HELOC principal. Salary is the workbook estimate after provisions.

Trust-to-Joint transfers support scheduled payments and are not additional expenses. Net RMDs are saved to brokerage.

UK funds are reserved for travel and carers. See Appendix O and the workbook for later-year monthly movements.

SUPPORTING MATERIAL

Household account flows by year	**Appendix N | Pages 44-50**
Later-years monthly account ledger extracts	Appendix O | Pages 51-55

Assumptions and items to refine

Assumption	Treatment
Pensions	Stacey's January entitlement is paid from February; her forecast includes earnings increases and COLA. Ian's 2027 US benefit uses the model's 3.6% increase. The UK exchange rate is held constant.
General expenses	2.5% annual increase unless a specific exception or year override applies. 2026 is a provisional run-rate, not audited actual spending.
Healthcare	2029 premiums: $1,513/month for both, including modeled IRMAA; component costs vary by year. Extra medical: $100/month from 2029. Standard lookback assumed; review work-stoppage relief.
Vision and dental	Vision at no charge through the family optometrist; dental is paid from existing savings outside the ongoing expense allowance. Both ongoing input amounts are $0.
Vacations	$24,000 in 2027 for travel and carers, rising 2.5% annually; independent of UK pension income. Year overrides can reduce future travel.
Insurance and debt	UNUM $439/month in 2027, rising 5% annually; mortgage $2,560/month through 2029. HELOC opens at $15,000 in January 2027; the 2028 ledger shows payoff in October.
Tax and RMDs	Joint tax liabilities/provisions, not a payroll withholding forecast. Future tax dollar parameters are planning estimates. Net RMD proceeds saved through 2031, spent from 2032.
CTP and RSUs	Two employment years, then $205,469 W-2 payments each July in 2029-2031. RSUs vest separately and are included in projected tax and the Bank of America stock holding.
Investment returns	IRAs modelled at 60% equities at 7% and 40% Treasuries at 5% (6.2% blended). Other share accounts: 7%. Preferred deposit and CTP surplus: 3.84%. Returns are nominal. Account details: page 36.
	2032 premiums: Ian $1,219/month and Stacey $1,090/month, including IRMAA. The first year with no modeled IRMAA is 2034. Work-stoppage relief is not assumed.

Inputs, units and annual increases - 1 of 3

Monthly and annual bill inputs are separate. A dash means that input column is unused; explicit $0 means a zero budget. Rates apply to the stated base year unless noted.

Expense / base input	Monthly amount	Annual amount	Annual increase	Timing and notes
Housing				
Mortgage and overpayment	$2,560	-	0.0%	$2,560/month through Dec 2029; includes overpayment.
Property tax	-	$13,000	2.5%	User confirmed $13,000/year; general inflation applies.
Home insurance	$200	-	2.5%	Review: Legacy amount.
Umbrella insurance	$40	-	2.5%	Review: Legacy amount.
HELOC payments	$1,000	-	0.0%	2027 opening $15,000; regular principal $1,400/month plus interest.
Property work				
Routine house maintenance	$0	-	2.5%	$0 base through 2031; 2032 override is $2,400/year.
Property work: maintenance + improvements	$2,000	-	2.5%	2026 base; $2,215/month to building fund in 2027.
Food and personal				
Food, wine and dining	$1,600	-	2.5%	Review: Legacy amount; includes chickens in later budgets.
Ian personal / household	$500	-	2.5%	Review: Confirm what house purchases this already covers.
Stacey personal	$500	-	2.5%	Review: Legacy amount.

Household miscellaneous buffer is $0 from January 2027; $400/month redirected to HELOC.

Inputs, units and annual increases - 2 of 3

Monthly and annual bill inputs are separate. A dash means that input column is unused; explicit $0 means a zero budget. Rates apply to the stated base year unless noted.

Expense / base input	Monthly amount	Annual amount	Annual increase	Timing and notes
Insurance and healthcare				
UNUM life insurance	$439	-	5.0%	5% annual increase; stops after Dec 2029.
Healthcare base (2029)	$1,513	-	5.0%	2029 base for both spouses; included once in household spending.
Extra medical / prescriptions (2029 base)	$100	-	2.5%	2029 base. Free prescriptions through 2028; $100/month provisional from 2029.
Dental / vision out-of-pocket	$0	-	2.5%	Vision free through family; dental paid from savings; ongoing budget $0.
Transport				
Car insurance	$300	-	2.5%	Review: Legacy amount.
Car registration / DMV	-	$933	2.5%	Two 2027 payments in January and June.
Car servicing	-	$600	2.5%	Existing $600/year estimate retained by user.
Gasoline	$200	-	2.5%	User confirmed $200/month, with general inflation.
Fastrak / tolls	$25	-	2.5%	Tolls: $25 per month at the 2026 base, increasing 2.5% annually.
Utilities and services				
Cleaner	$420	-	2.5%	User corrected to $420/month.
Gardener	$260	-	2.5%	Review: Legacy amount.
PG&E	$50	-	2.5%	Review: Confirm whether annual true-up is covered by this allowance.
Water	$0	-	2.5%	Well water; no utility bill.
Trash	$111	-	2.5%	Review: Legacy amount.
Internet	$50	-	2.5%	Review: Legacy amount.
Cellphones	$144	-	2.5%	Review: Legacy amount.

Inputs, units and annual increases - 3 of 3

Monthly and annual bill inputs are separate. A dash means that input column is unused; explicit $0 means a zero budget. Rates apply to the stated base year unless noted.

Expense / base input	Monthly amount	Annual amount	Annual increase	Timing and notes
Subscriptions and leisure				
Wall Street Journal	$40	-	2.5%	Review: Legacy amount.
The Times UK	$15	-	2.5%	Review: Legacy amount.
Telegraph	$15	-	2.5%	Review: Legacy amount.
YouTube TV	$83	-	2.5%	Review: Legacy amount.
Britbox	$7	-	2.5%	Review: Legacy amount.
Apple TV	$13	-	2.5%	Apple TV estimated $13/month.
Duolingo Family	-	$120	2.5%	Annual family subscription, rounded standard price $120.
Yahoo email	$15	-	2.5%	Yahoo email new plan $15/month.
Apple storage	$6	-	2.5%	Review: Legacy amount.
Gym	$170	-	2.5%	Review: Legacy amount.
Vacations				
Travel and carers (2027 base)	-	$24,000	2.5%	2027 base; independent of pension income. Annual overrides available.

Other workbook inputs: ChatGPT $20/month; Railway, EODHD and GitHub $216.07/month; Stacey music $200/month and Costco $65/year. See workbook for timing and increases.

The controls behind the expense forecast

Control	Active treatment
Base year	2026 for normal household inputs; separate 2027 vacation and 2029 healthcare / extra-medical bases.
Property-work start / finish	$4,000 in 2026, then $52,000 of building bills in 2027; trust funds and HELOC finance the work.
Routine maintenance override	2032: $2,400 annual ($200/month), stated in 2032 dollars. Zero through 2031.
HELOC	Opening $15,000; 2027 regular principal $1,400/month, with interest separate. No extra January principal; 2028 ledger shows payoff in October.
Transition reserve	Opening $0. Save $500/month plus $6,100 extra in January 2027; $1,575/month in 2028. Withdraw for Jan–Jun 2029 spending; $3,024 remains after June.
RMD savings end year	2031. Net RMD savings are zero from 2032; RMDs are then spendable.
Vacations	Base $24,000 in 2027. Annual overrides presently blank; default 2.5% annual growth applies.
Other project overrides	Remaining building fund is applied to the HELOC in 2028; no new building bills modeled.
Medical allowance first year	2029. Prescriptions assumed free under the employer plan through December 2028.
Tolls / dental / vision	Tolls $25/month at the 2026 base; dental and vision are set to $0.
Missing recurring expense amounts	Workbook count is zero; some entered amounts remain planning estimates.

Zero is a budget decision, not evidence that a cost can never occur. Dental work, exceptional repairs or other unbudgeted purchases would use the remaining surplus or existing savings. The current report does not add an unspecified reserve for those items.

Individual household expenses

Monthly averages in each period; values follow the current workbook expense detail.

Expense	2026	2027	2028	Jan-Jun 2029	Jul-Dec 2029	2030	2031	2032
Housing								
Mortgage and overpayment	$2,560	$2,560	$2,560	$2,560	$2,560	$0	$0	$0

Subscriptions subtotal includes additional technology, music and membership costs.

How the joint tax provision is calculated

Annual USD	2026	2027	2028	2029	2030	2031	2032
US Social Security gross	36,324	70,610	78,211	83,078	88,219	91,947	95,775
US Social Security federally taxable	30,875	60,018	66,479	70,617	74,986	78,155	71,467
Taxable RMD income	0	14,485	15,401	16,309	17,268	43,301	45,979
Federal AGI	365,184	293,244	292,115	339,125	354,660	354,549	144,600
Federal taxable income	329,684	256,644	254,599	300,672	315,245	314,150	103,191
Federal income tax	64,320	46,313	45,440	56,106	59,202	58,528	11,804
California taxable income	322,897	221,814	213,939	256,518	267,385	263,798	60,221
California income tax	22,295	12,894	11,968	15,729	16,536	15,995	278
Combined income tax	86,615	59,207	57,407	71,834	75,738	74,523	12,081
RMD-attributable tax (included above)	0	4,823	5,128	5,431	5,750	14,419	10,268

Three distinctions

Taxable Social Security is not an 85% tax rate. The model calculates the share of benefits included in federal taxable income, then applies the ordinary brackets. California excludes US Social Security. UK State Pensions remain in the model's federal and California taxable income.

RMD tax is an allocation within the household total. Incremental tax is the difference between the full calculation and the same calculation without RMD income. Net RMD savings are gross proceeds less that tax; no second tax deduction is added.

Liability differs from withholding. Figures are joint tax provisions. The annual-payment cash calendar reserves the extra CTP-year income tax in July; payroll withholding and final settlement may be timed differently. Future-year tax parameters remain estimates.

These tax figures exclude incremental tax on Trust Cash interest.

APPENDIX E | ANNUAL RECONCILIATION

From income to cash surplus

Annual USD; 2029 is split to make the reserve and the July payment visible.

Annual amount	2026	2027	2028	Jan–Jun 29	Jul–Dec 29	2030	2031	2032
Gross income before interest	$374,637	$335,344	$325,355	$63,059	$268,528	$337,893	$368,341	$168,907
Deposit interest	$0	$0	$0	$0	$2,244	$5,973	$10,005	$13,182
Income and payroll costs	$136,037	$91,584	$85,526	$3,321	$80,899	$86,127	$96,244	$16,628
Income after taxes / payroll	$238,600	$243,760	$239,829	$59,738	$189,872	$257,739	$282,102	$165,461
Funding from reserves	$0	$100	$0	$27,976	$0	$0	$0	$0
Total cash available	$238,600	$243,860	$239,829	$87,715	$189,872	$257,739	$282,102	$165,461
Household spending	$142,519	$187,024	$164,808	$81,518	$81,518	$130,747	$139,650	$146,772
Planned savings	$32,622	$56,802	$64,847	$6,197	$6,197	$12,610	$30,015	$0
CASH SURPLUS	$63,460	$34	$10,174	$0	$102,157	$114,383	$112,437	$18,689

Cash available = income after taxes and payroll + reserve funding. Cash surplus = cash available − spending − savings.

2029 funding is a withdrawal from existing savings, not new income. Amounts include tax on deposit interest and may not add due to rounding.

Source: Cash flow overview. Values are rounded independently.

Company deductions and separate vesting

2027 benefit deduction	Per period	Annual budget
Medical before credit	$646.56	$15,517
Dental	$42.74	$1,026
Vision	$7.35	$176
AD&D	$12.02	$288
LTD	$28.52	$684
Spouse insurance	$7.75	$186
Benefits components above; net total shown below.		
Separate individual disability	$39.32	$944
Medical credit	($41.66)	($1,000)
TOTAL COMPANY BENEFITS	$742.60	$17,822

Annualisation retains 24 deduction periods. The 2028 forecast keeps these amounts. The separate $39.32 disability line is included in both years; its exact policy description remains unresolved. Supplemental associate life, parking and BDA do not continue in 2027. All company deductions end after December 2028.

RSUs are included in the forecast

Vesting year	Gross vesting amount
2027	$10,000
2028	$20,000
2029	$20,000
2030	$30,000

Future vesting is included in taxable compensation; shares retained after estimated tax build the separate BAC holding.
The 2026 RSU proceeds went toward the HELOC; the January 2027 opening balance is $15,000.

Starting accounts and return assumptions

Balances provided for the 2026 starting point; modeled annual nominal returns.

Account	Starting balance	High	Working	Lower
Joint trust brokerage	$72,189	8.0%	7.0%	6.5%
Merrill Preferred deposit	$20,994	3.84%	3.84%	3.84%
Ian IRA	$380,319	7.0%	6.2%	6.0%
Stacey IRA	$456,000	7.0%	6.2%	6.0%
Stacey 401(k) opening balance (Roth)	$10,000	8.0%	7.0%	6.5%
Ian SIPP	£92,000	8.0%	7.0%	6.0%
BAC stock	$0	—	7.0%	—
CTP surplus deposit	$0	—	3.84%	—

The SIPP is converted at $1.30 per £1. The existing deposit earns 3.84% in every case.

2027 and 2028: $25,500 employee traditional, $7,000 employer traditional and $8,500 Roth.

Net RMDs are reinvested in brokerage through 2031; from 2032 they are available for spending.

The CTP surplus deposit is included separately in the later assets forecast; its interest uses the tax model.

Monte Carlo charts use their own stated assumptions and are fixed snapshots, not automatic recalculations.

Source: Retirement_Plan_V68.xlsx. Monte Carlo results use the corrected workbook snapshots.

Review assumptions and rerun the simulation after material plan changes.

BAC stock: starts at $0; future shares retained. Working return 7%; simulation volatility 30%. Tax on stock sales is not modeled.

The same forecast in 2026 purchasing power

Amounts are converted to 2026 dollars using the plan’s 2.5% annual inflation assumption.
These figures show the purchasing power of the main retirement forecast.

Year	Gross income	Income tax	Household spending	Vacations included	Cash surplus
2032	$157,015	$14,338	$126,561	$20,052	$16,116
2033	$158,813	$14,806	$127,527	$20,052	$16,480
2034	$160,637	$15,280	$121,966	$20,052	$23,390
2035	$162,410	$15,741	$123,302	$20,052	$23,367
2036	$164,408	$16,261	$124,523	$23,415	$23,625
2037	$166,336	$16,762	$125,588	$23,415	$23,986
2038	$168,413	$17,302	$126,916	$23,415	$24,195
2039	$170,241	$17,777	$128,427	$23,415	$24,037
2040	$172,233	$18,295	$129,425	$23,415	$24,513
2041	$174,078	$18,775	$130,439	$23,415	$24,864
2042	$175,954	$19,290	$131,452	$23,415	$25,213

The workbook includes changing spending and vacation amounts in purchasing-power terms.

How we save through the transition

Monthly averages for each period. Retirement contributions, net RMD transfers and the transition reserve are separate purposes. Cash surplus is after all planned savings and includes deposit interest and its tax.

Monthly average	2026	2027	2028	Jan-Jun 2029	Jul-Dec 2029	2030	2031	2032
Traditional 401(k)	$1,569	$2,125	$2,125	$0	$0	$0	$0	$0
Roth 401(k)	$1,139	$708	$708	$0	$0	$0	$0	$0
Other income retained in savings	$10	$87	$140	$126	$126	$91	$94	$0
Net RMD savings to brokerage	$0	$805	$856	$906	$906	$960	$2,407	$0
Transition-reserve contributions	$0	$1,008	$1,575	$0	$0	$0	$0	$0
Total planned savings	$2,718	$4,734	$5,404	$1,033	$1,033	$1,051	$2,501	$0
Cash surplus	$5,288	$3	$848	$0	$17,026	$9,532	$9,370	$1,557

Timing of the commitments

HELOC opens at $15,000 in 2027; no extra January principal is planned. The 2028 ledger shows payoff in October. Mortgage payments, including the $1,000 monthly overpayment, end in December 2029.

Net RMDs are saved to brokerage through 2031. The transition reserve funds early 2029, leaving $3,024 after June. Unallocated cash is held on deposit, separate from planned savings.

How the transition reserve is used

Monthly cash timing: pensions continue; the first CTP payment arrives on 1 July.

THE RESERVE BEFORE JULY

$31,000 saved in 2027·28

Month	Pensions	CTP gross	Reserve funding	Transition reserve left
Jan	$9,024	$0	$4,663	$26,337
Feb	$9,024	$0	$4,663	$21,675
Mar	$9,024	$0	$4,663	$17,012
Apr	$9,024	$0	$4,663	$12,349
May	$9,024	$0	$4,663	$7,686
Jun	$9,024	$0	$4,663	$3,024
Jul	$9,024	$205,469	$0	$3,024
Aug	$9,024	$0	$0	$3,024
Sep	$9,024	$0	$0	$3,024
Oct	$9,024	$0	$0	$3,024
Nov	$9,024	$0	$0	$3,024
Dec	$9,024	$0	$0	$3,024

The first six months use approximately $4,663 a month; $3,024 remains after June.

The July payment is gross. Taxes, spending and net RMD savings are budgeted separately; cash is retained for later bills.

2027 income and essential outgoings

Monthly amounts are planning allocations; see Appendix A (page 25) before using these as payment dates.

Cash after HELOC float	482	1,652	(6,170)	(7,219)	(5,863)	(4,891)	(3,869)	(2,514)	(1,159)	(462)	893	2,249	2,249

HELOC interest and borrowing follow the account ledger. Monthly scenario figures combine payments and allocations.

UK opening cash is not a new income credit. Asia travel timing is illustrative; other travel is set aside.

The scenario summary uses property-tax reserve funding; page 40 shows property-tax payments.

HELOC repayment and building schedule

HOW TO READ THE SCHEDULE

2027 table isolates building draws and regular principal. Other HELOC borrowing and repayments are in the account ledger.
Building-only year-end $28,050 differs from the full ledger's $27,699, used as the 2028 opening balance.
2028 principal column shows regular payments; January also applies $4,430 from the building fund.

Interest is paid separately. Figures use workbook schedules and are rounded.

Contingencies to revisit together

These scenarios are for future discussion and are not included in the forecast.

01 | Plan for sustained care

Give paid care its own line, separate from travel. Discuss an example of either of us needing help at home while the other is still alive. Consider shared housing, travel and what cash and investments would cover. This is a future discussion, not part of the forecast.

02 | Allow for a longer 2029 gap

The forecast earmarks $31,000 and uses $27,976 before July, leaving $3,024 after June. Consider a longer gap in a future review. Confirm coverage end dates, Medicare start dates and any income-related premium surcharge.

03 | Prepare for an earlier disruption

Test a death or inability to work in 2028 or early 2029, while the mortgage and CTP payments still matter. Check what the agreement says about remaining payments and unvested RSUs. Record who can manage bills, taxes, the Trust and SIPP, and who can arrange care if either of us cannot act.

04 | Set aside money for major costs

List a major home repair, vehicle replacement and dental work separately. Decide how much to earmark and where to keep it, so the same cash is available for only one purpose. Review spending if a care need, coverage change, delayed payment or major repair would draw down the transition reserve.

HELOC | Confirm the payoff path at the next review

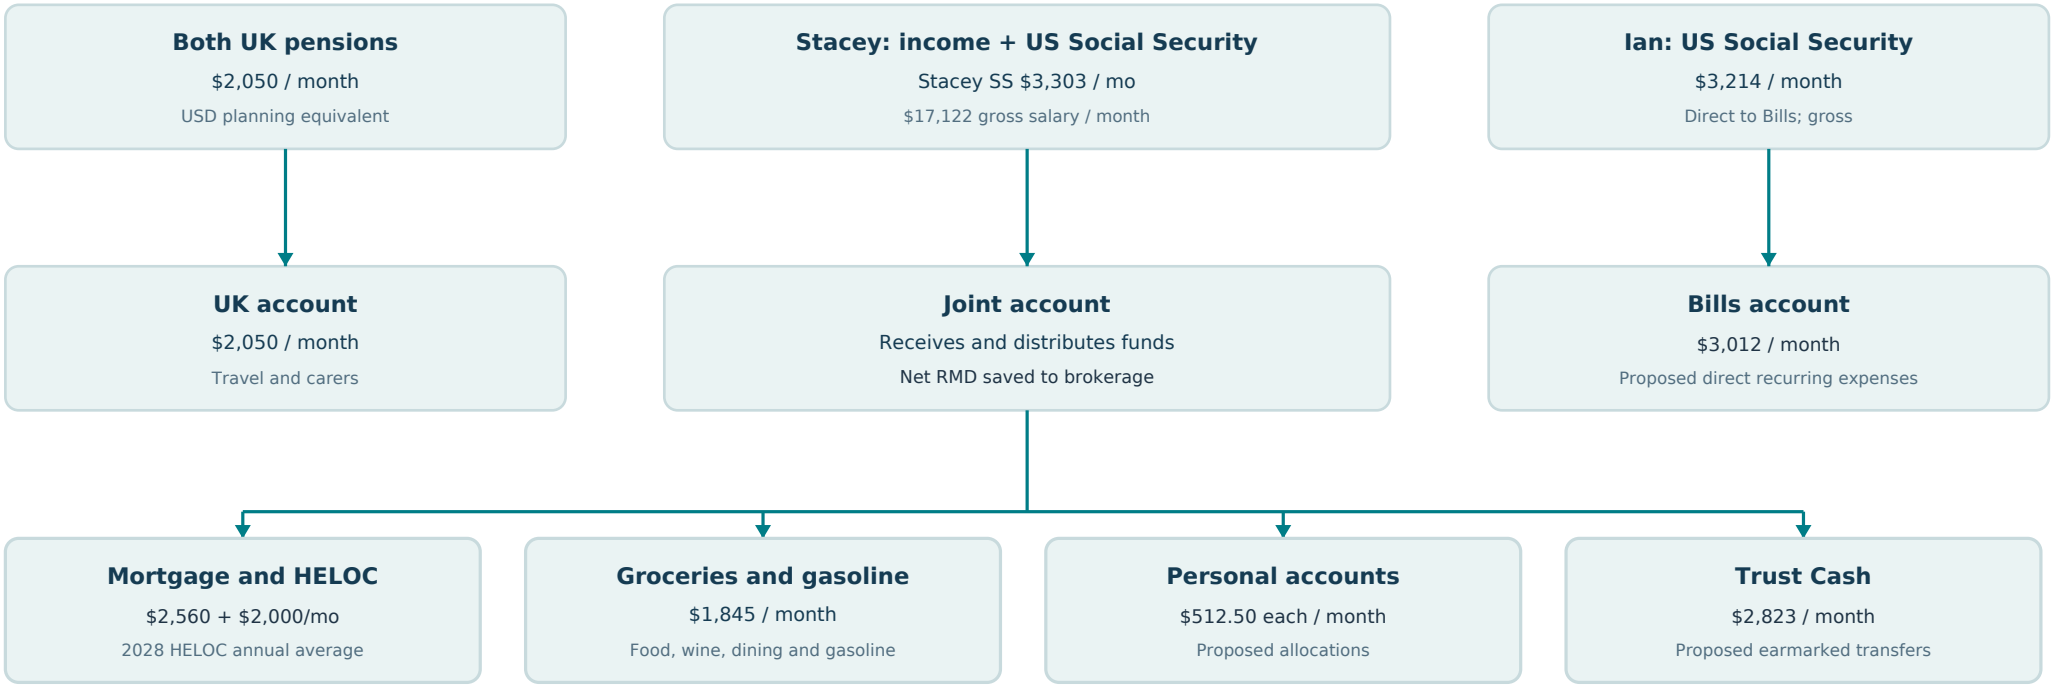

The 2028 account ledger shows HELOC payoff in October 2028.

Appendix L shows the monthly building draws, interest and repayment schedule.

Related pages: survivor budgets 12-13, actions 20, transition reserve 39, HELOC scenarios 40-42.

2028 | How money moves between accounts

Monthly averages in projected dollars. Transfers marked proposed need agreement before autopay.

HOW THE AMOUNTS FIT

Salary and benefits are estimates; net RMD proceeds are saved to brokerage.

The reserve receives $1,575 per month. HELOC is repaid in October; payments vary by month.

Trust Cash funds scheduled payments through Joint. Bills keeps its year-end float; surplus goes to Trust.

The detailed page follows. Individual bills are planning amounts, not confirmed bank mandates.

Tax and payroll are household provisions. Timing, payment source and actual balances may differ.

2028 | Account-by-account monthly budget

Individual expenses and proposed transfers; projected monthly averages, not instructions to banks.

ACCOUNT NOTES

UK cash is for travel and carers.

Travel dates are not yet entered.

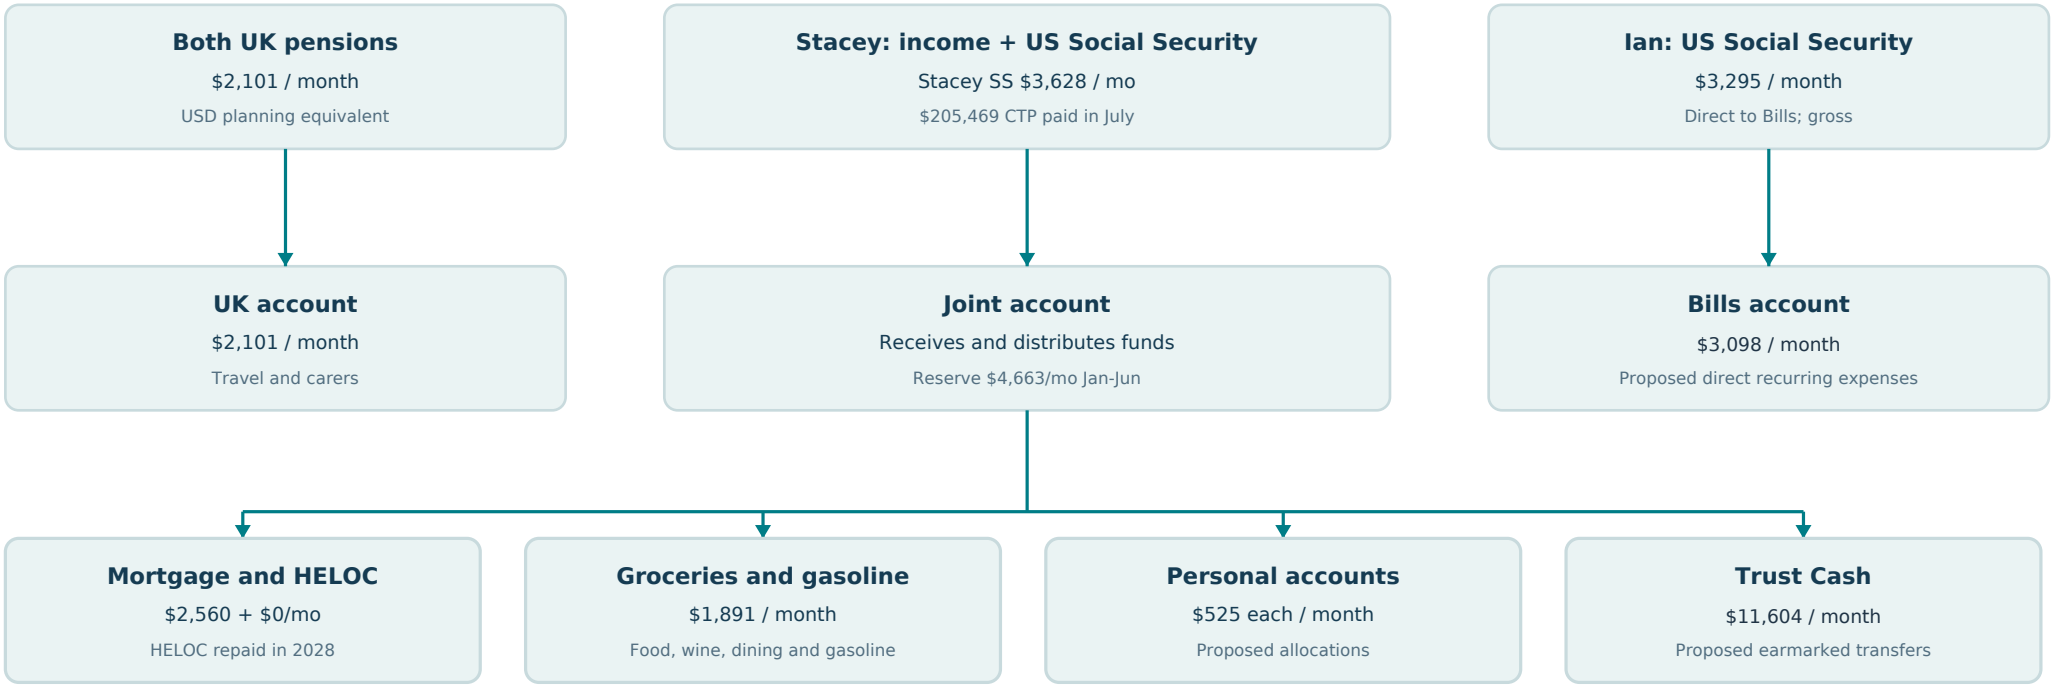

Monthly averages; scheduled payment amounts and actual payment dates differ. Transfers are not additional spending.

Bills retains its year-end float; excess goes to Trust Cash. Trust sends funds back to Joint for scheduled payments.

Net RMDs are saved to brokerage; salary is shown after workbook provisions. See Appendix O for monthly ledger extracts.

2029 | How money moves between accounts

Monthly averages in projected dollars. Transfers marked proposed need agreement before autopay.

HOW THE AMOUNTS FIT

January-June: the transition reserve funds Joint before the July CTP payment.

July: the $205,469 gross CTP payment is a lump sum; Trust receives cash for later payments.

Trust also transfers funds to Joint for scheduled expenses; internal transfers are not extra spending.

The detailed page follows. Individual bills are planning amounts, not confirmed bank mandates.

Tax and payroll are household provisions. Timing, payment source and actual balances may differ.

2029 | Account-by-account monthly budget | January-June
