EXECUTIVE SUMMARY

Our six-year plan and the retirement that follows

Stacey's Career Transition Plan takes us through 2031 to full joint retirement in 2032, while we complete the renovation and continue to save.

THE PLAN THROUGH AGE 95

In the updated 5% compound return simulation, all 10,000 joint paths funded the plan through age 95 without using the house. Pensions and expenses rise 2.5% a year, and Stacey's individual budget follows Ian reaching 95.

HOME RENOVATION	ADDITIONAL SAVINGS	2032 INVESTMENTS	2032 CASH SURPLUS
$56,000	**$309,375**	**$2.00 million**	**$2,317 monthly**
2026–27 building work	Net increase through 2031	Projected year-end balance	After tax and household spending

Our transition

2027–28 | Employment and preparation. Stacey remains employed on a $205,469 annual salary from February 2027, after estimated January pay of $36,862. Save $500/month in 2027 plus $5,100 extra in January; $1,575/month in 2028. Building work is modeled in 2027; the HELOC is repaid in 2028.

January–June 2029 | The transition. Pensions continue and Medicare begins. The transition reserve covers the period before the first July payment. Mortgage payments continue.

July 2029–2031 | Annual payments. Stacey receives $205,469 each July, with after-tax cash held in Preferred Deposit for spending. Our $2,560 monthly mortgage payment, including a $1,000 overpayment, ends in December 2029.

2032 onward | Joint retirement. With no further CTP payments, our income comes from pensions, deposit interest and retirement withdrawals.

Our life in retirement

Travel and healthcare. The 2032 budget allows $23,254 for vacations and $16,799 for healthcare, including prescriptions.

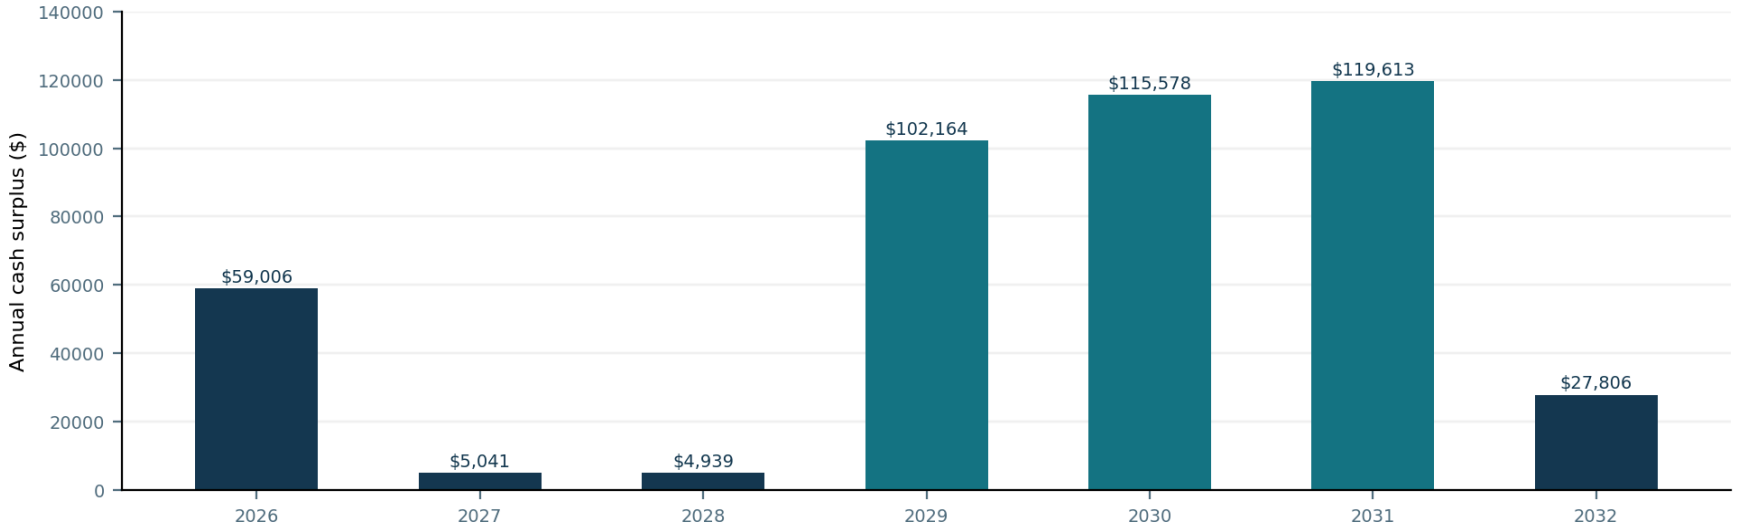

Income and investments. Gross US and UK pensions are $122,929 in 2032. The working forecast reaches $2.00 million in investments by year-end, including the CTP surplus deposit.

Cash and savings. The projected end-2031 deposit is $337,355. The $309,375 net increase allows for the $27,980 drawn from the reserve in early 2029.

Planning assumptions and items to review: Appendix A, page 25. Appendix guide: page 24.

Cash surplus after spending and planned savings

Calendar-year totals include tax and the estimated interest on CTP cash. The 2029 amount includes the benefit of the reserve used in January-June.

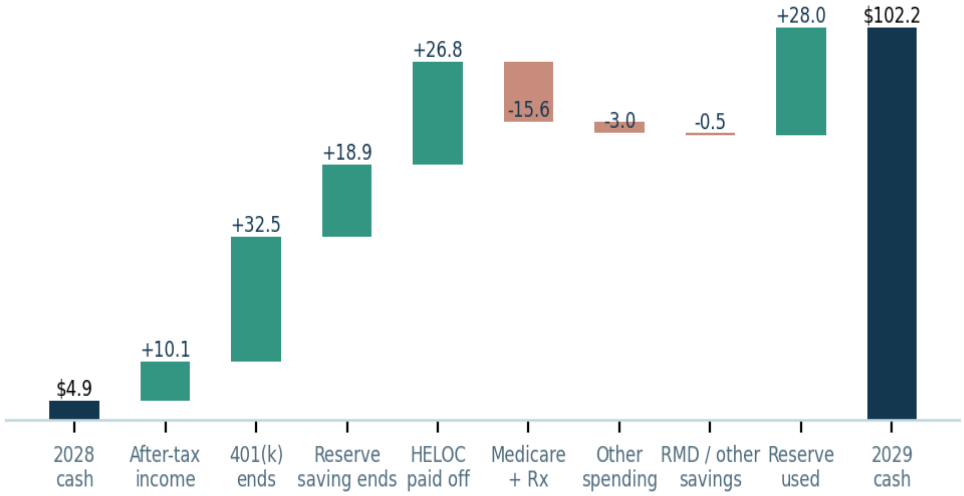

The 2029 bar includes $27,980 from the transition reserve. Part of the deposit balance at each year-end is needed to cover bills before the next July payment.

Preferred Deposit is modeled at 3.84%; interest is added to taxable income and the estimated incremental federal and California tax is charged to the deposit. The end-2031 balance is $337,355.

WHY CASH SURPLUS CHANGES

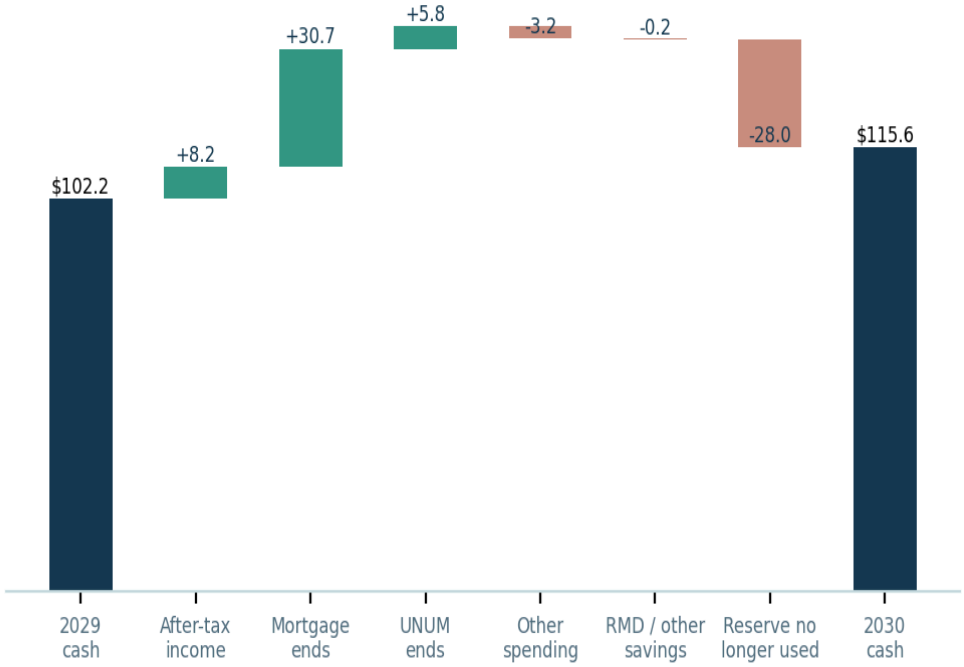

Annual household cash after taxes, spending and planned savings

2028 to 2029 | First CTP payment

All values in $1,000s

2029 to 2030 | Mortgage paid off

All values in $1,000s

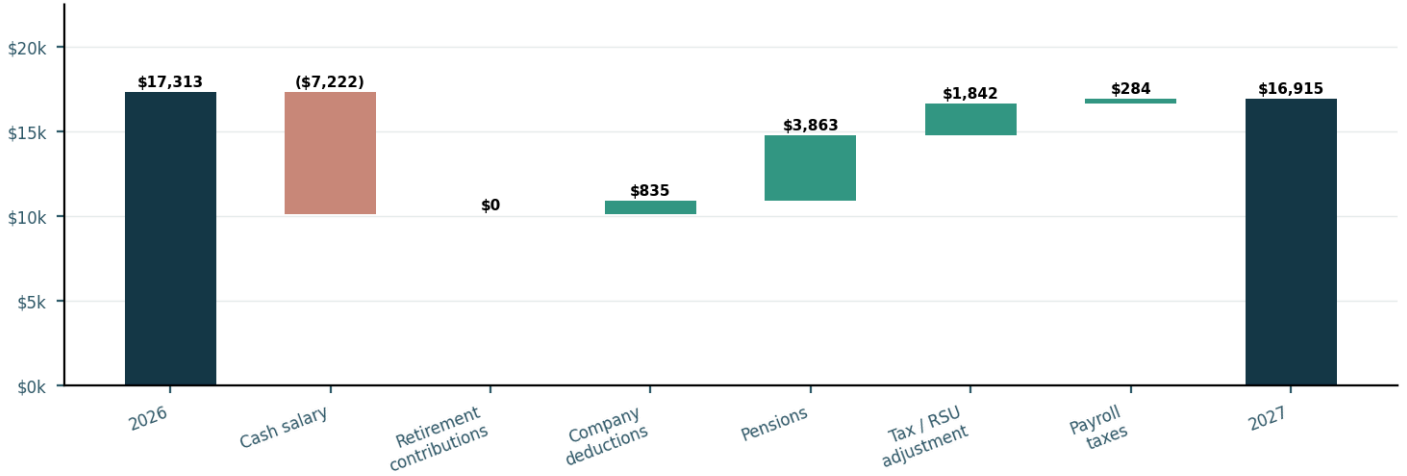

2029 includes $28.0k **of existing reserve funding; about** $74.2k **is new cash.**

[1] After-tax income includes pensions, RMDs, tax, payroll costs and company benefits; 2030 includes deposit interest.

Annual amounts rounded to $0.1k. Net RMDs remain invested. Cash is retained for spending between July payments.

The first CTP employment year

Lower compensation is offset in part by the start of Stacey's pensions, lower tax and changes in payroll deductions. Net RMD proceeds are saved rather than spent. This comparison is before household expenses and transition-reserve contributions.

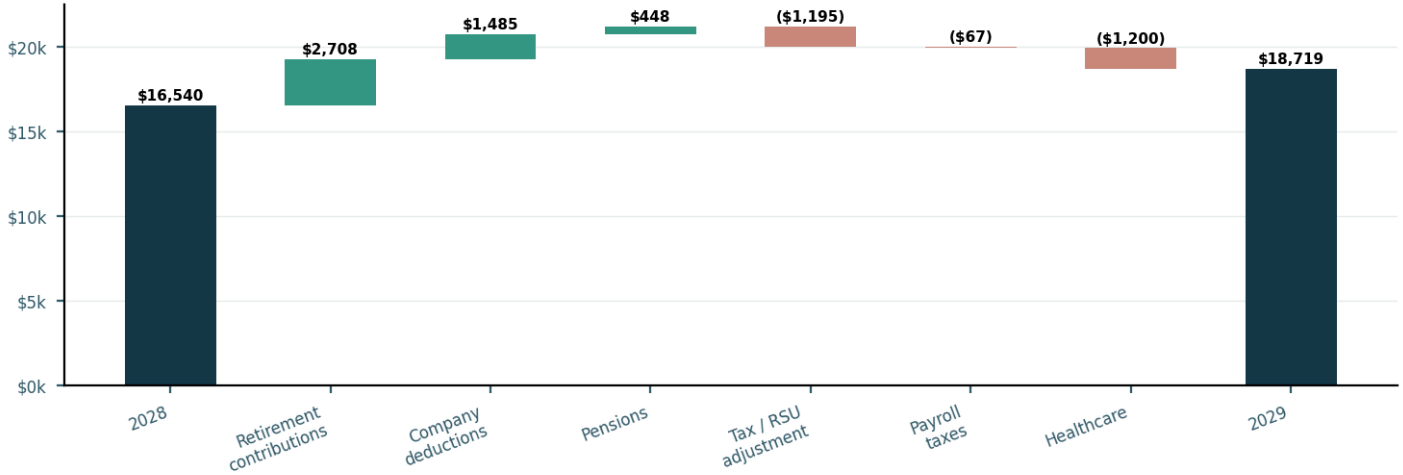

Income effect	Annual change	Monthly change
Cash salary / CTP	($86,668)	($7,222)
Retirement contributions	$0	$0
Company deductions	$10,017	$835
Pensions	$46,286	$3,857
Income tax and RSU withholding adjustment	$22,101	$1,842
Payroll taxes	$3,413	$284
NET CHANGE	**($4,850)**	**($404)**

Comparable income: $17,175/month in 2026 to $16,771/month in 2027, after tax and retirement / RMD savings.
The nominal 2026 cash surplus was spent and is not carried forward.
The tax line adjusts for RSUs and other cash income; net RMD savings are after incremental tax.

Tax calculation: Appendix D, page 33. Company benefits and RSUs: Appendix F, page 35.

From salary to an annual payment

Annual compensation remains $205,469, but employee retirement contributions and company deductions end. External healthcare begins. The annual income level improves even though the first CTP cash does not arrive until July.

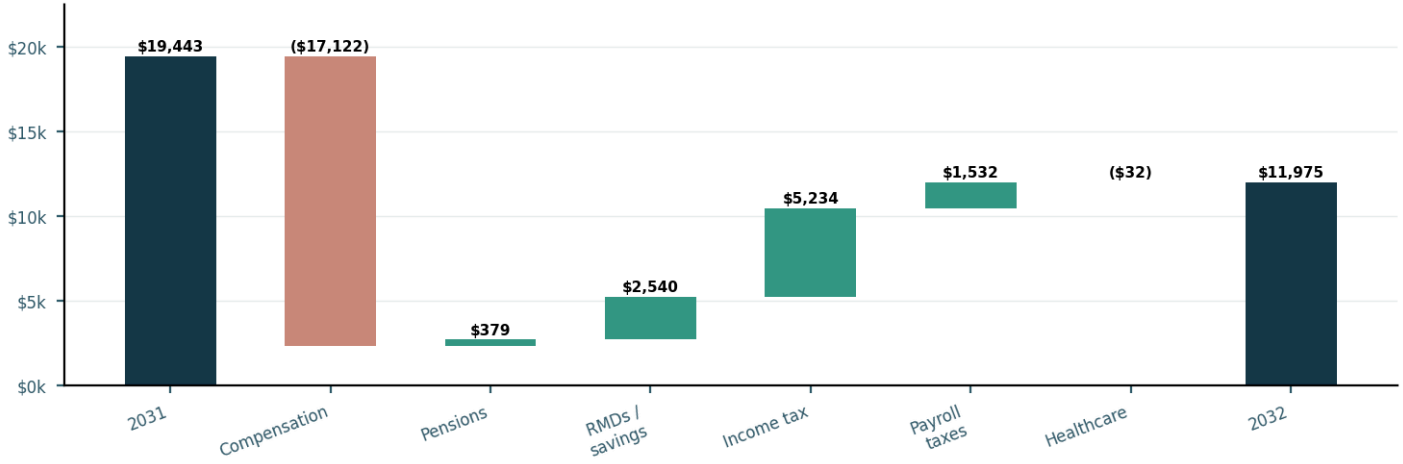

Income effect	Annual change	Monthly change
Retirement contributions	$32,500	$2,708
Company deductions	$17,822	$1,485
Pensions / other income	$5,341	$445
Tax / RSU adjustment	($14,333)	($1,194)
Payroll taxes	($806)	($67)
External healthcare	($14,400)	($1,200)
NET CHANGE	$26,124	$2,177

Comparable income: $16,391/month in 2028 to $18,568/month in 2029, after tax and savings, before living costs.
Net RMD cash is after incremental tax. The tax / RSU adjustment also accounts for changes in retained shares.

Tax calculation: Appendix D, page 33. Company benefits and RSUs: Appendix F, page 35.

After the final CTP payment

The $205,469 payment ends. Lower income and payroll taxes offset part of that change; net RMDs become available to spend. Both years are already mortgage-free. The household spending budget is assessed separately.

Income effect	Annual change	Monthly change
Compensation	($205,469)	($17,122)
Pensions / other income	$4,490	$374
RMDs, savings and other income	$30,549	$2,546
Income tax	$62,428	$5,202
Payroll taxes	$18,389	$1,532
External healthcare	($378)	($32)
NET CHANGE	($89,990)	($7,499)

Comparable income: $19,282/month in 2031 to $11,783/month in 2032, after tax, healthcare and retirement / RMD savings, before household living costs.
The RMDs and savings effect includes gross RMDs and changes in savings; the income-tax effect includes tax on RMDs.

Tax calculation: Appendix D, page 33. Annual cash reconciliation: Appendix E, page 34.

The transition to retirement

Annual cash flow by source; 2029 is split to show the funding gap.

Income and cash flow	2026	2027	2028	Jan-Jun 29	Jul-Dec 29	2030	2031	2032
Salary / CTP cash	$311,876	$225,208	$205,469	$0	$205,469	$205,469	$205,469	$0

CASH SURPLUS	**$59,006**	**$5,041**	**$4,939**	**$0**	**$102,164**	**$115,578**	**$119,613**	**$27,806**
Monthly surplus	$4,917	$420	$412	$0	$17,027	$9,631	$9,968	$2,317

RSUs retained as BAC stock are excluded from cash income. 2026 RSU proceeds were applied toward the HELOC.
Tax and payroll costs shown here exclude the amount covered from RSU proceeds or shares.
Net RMDs are included in planned savings through 2031; reserve funding comes from existing savings.
The budget includes renovation, mortgage overpayments, healthcare and vacations. Figures are rounded.
The 2026 cash surplus is a full-year baseline; it has already been spent and is not carried forward.

Annual reconciliation: Appendix E, page 34. Savings commitments: Appendix I, page 38. 2029 reserve schedule: Appendix J, page 39.

Our monthly household budget

Monthly averages for each year; 2029 is split into January-June and July-December.

Expense group	2026	2027	2028	Jan-Jun 29	Jul-Dec 29	2030	2031	2032
Housing and debt	$4,050	$5,234	$6,147	$3,950	$3,950	$1,425	$1,461	$1,497
Property maintenance and improvements	$333	$2,215	$0	$0	$0	$0	$0	$200
Food and personal, excluding buffer	$2,600	$2,600	$2,665	$2,732	$2,732	$2,800	$2,870	$2,942
Miscellaneous buffer	$400	$400	$410	$420	$420	$431	$442	$453
Transport	$655	$655	$671	$688	$688	$705	$723	$741
Utilities and household services	$1,035	$1,035	$1,061	$1,088	$1,088	$1,115	$1,143	$1,171
Subscriptions and leisure	$784	$784	$804	$824	$824	$845	$866	$887
Healthcare and personal insurance	$439	$439	$461	$1,784	$1,784	$1,332	$1,366	$1,400
Vacations	$1,626	$1,675	$1,725	$1,776	$1,776	$1,829	$1,883	$1,938
Carers	$325	$325	$325	$325	$325	$325	$325	$325
Total household spending	**$12,248**	**$15,362**	**$14,269**	**$13,587**	**$13,587**	**$10,807**	**$11,077**	**$11,554**
Monthly surplus after planned savings	**$4,917**	**$420**	**$412**	**$0**	**$17,027**	**$9,631**	**$9,968**	**$2,317**

Surplus is after income tax, payroll costs, household spending and planned savings; it is not an expense. Payroll benefits through 2028 are included in payroll costs. External healthcare begins in 2029. 2026 is a provisional baseline. Amounts are rounded. See pages 9-10 for spending details.

Expense inputs: Appendix B, pages 26-29. Individual expenses: Appendix C, pages 30-32.

Our 2027 spending choices

Monthly averages in 2027 dollars | Both of us | Provisional classification

Income after tax $20,284 / month **Household spending $15,362 / month**

NON-DISCRETIONARY	
Mortgage and overpayment	$2,560
HELOC payment	$1,350
Property tax	$1,083
Home insurance	$200
Umbrella insurance	$40
Food, wine and dining	$1,600
Car insurance	$300
Car registration	$80
Car servicing	$50
Gasoline	$200
Fastrak / tolls	$25
Cleaner	$420
Gardener	$260
PG&E	$50
Trash	$111
Internet	$50
Cellphones	$144
UNUM life insurance	$439
Carers	$325
Gym	$170
TOTAL	**$9,457**

DISCRETIONARY	
Property work and improvements	$2,215
Vacations	$1,675
Ian personal / household	$500
Stacey personal	$500
Miscellaneous buffer	$400
Stacey music lessons	$200
ArchAlpa	$165
YouTube TV	$83
Wall Street Journal	$40
The Times	$15

Costco membership	$6
TOTAL	**$4,417**

Total household spending: $11,554 **Surplus after tax and spending: $2,317**

Food, wine and dining are kept together; some of this spending may be flexible.

Surplus is outside the spending budget. Rounded figures. Source: current workbook.

Income and expenses through 2042

The 2032 starting point is $122,929 in gross pensions + $46,078 in gross RMDs + $14,425 in deposit interest = $183,431 in total gross income. The table shows annual future dollars and the final row in 2026 purchasing power.

Year	2032	2033	2034	2035	2036	2037	2038	2039	2040	2041	2042
Gross income	$183,431	$190,335	$197,565	$204,879	$212,785	$220,925	$229,602	$238,307	$247,604	$257,060	$266,939
Income tax	$16,977	$18,004	$19,097	$20,192	$21,420	$22,689	$24,077	$25,449	$26,972	$28,560	$30,241
Household spending	$138,648	$142,114	$145,667	$149,309	$153,042	$156,868	$160,789	$164,809	$168,929	$173,153	$177,481
Vacations included	$23,254	$23,835	$24,431	$25,042	$25,668	$26,310	$26,967	$27,641	$28,332	$29,041	$29,767
Cash surplus	$27,806	$30,216	$32,801	$35,379	$38,323	$41,368	$44,737	$48,048	$51,703	$55,347	$59,217
Remaining in 2026 dollars	$23,977	$25,420	$26,922	$28,329	$29,938	$31,529	$33,264	$34,855	$36,592	$38,215	$39,890

Pensions, household spending and the purchasing-power adjustment rise at 2.5% annually. Required distributions vary with account balances and age. The model assumes annual cash surplus stays on deposit.

Gross income includes interest on the CTP deposit; income tax includes the additional tax on that interest.

IN 2026 PURCHASING POWER

The household budget remain $119,556 a year, including $20,052 for vacations.

Cash surplus rises from $23,977 in 2032 to $39,890 in 2042, assuming 2.5% annual inflation.

Full forecast in 2026 purchasing power: Appendix H, page 37. Planning assumptions: Appendix A, page 25.

If one of us is living alone

Separate illustrations assume one spouse is alive from January 2032, with ownership of the traditional retirement accounts and access to the CTP deposit.

2032 annual	Ian alone	Stacey alone
INCOME		
Pensions	$56,154	$66,775
Required withdrawals	$50,343	$43,433
Deposit interest	$13,827	$13,869
Total income	**$120,324**	**$124,077**
EXPENSES		
Estimated income tax	$16,926	$16,865
Household spending	$106,455	$107,953
Including vacations	$23,254	$20,000
Total expenses	**$123,381**	**$124,818**
CASH SURPLUS	**$0**	**$0**

Vacations are included in household spending, not added to total expenses.

The itemised budgets retain shared house costs and reduce appropriate personal costs. Stacey's 2032 vacation allowance is $20,000; Ian's scenario retains the joint allowance. Both grow at 2.5% annually. Social Security uses an estimated survivor benefit.

The scenarios include deposit interest and estimated tax; initial shortfalls use the deposit. Spending assumptions can be refined in the workbook.

Planning assumptions: Appendix A, page 25. Tax calculation: Appendix D, page 33.

Living alone: income and spending through 2042

Separate illustrations assume the other spouse has died before 2032. Amounts are annual future dollars.
Income includes deposit interest and tax includes the additional tax on that interest.

	IAN ALONE						STACEY ALONE					
Year	Gross income	Income tax	Household spending	Vacation included	Cash remaining	Year-end deposit	Gross income	Income tax	Household spending	Vacation included	Cash remaining	Year-end deposit
2032	**$120,324**	**$16,926**	**$106,455**	**$23,254**	**$0**	**$334,298**	**$124,077**	**$16,865**	**$107,953**	**$20,000**	**$0**	**$336,613**

2037	$143,242	$21,282	$120,444	$26,310	$1,516	$332,134	$147,383	$21,167	$122,139	$22,628	$4,078	$346,304
2038	$148,713	$22,381	$123,455	$26,967	$2,877	$335,011	$152,852	$22,231	$125,193	$23,194	$5,428	$351,732
2039	$154,011	$23,415	$126,542	$27,641	$4,055	$339,066	$158,273	$23,267	$128,322	$23,774	$6,684	$358,417
2040	$159,532	$24,501	$129,705	$28,332	$5,325	$344,391	$164,313	$24,473	$131,530	$24,368	$8,309	$366,725
2041	$165,277	$25,657	$132,948	$29,041	$6,671	$351,062	$170,260	$25,637	$134,819	$24,977	$9,804	$376,530
2042	**$170,618**	**$26,677**	**$136,271**	**$29,767**	**$7,669**	**$358,731**	**$176,924**	**$27,000**	**$138,189**	**$25,602**	**$11,735**	**$388,265**

Vacations are included in spending. Initial shortfalls are funded from the deposit; cash surplus is after funding.

The year-end deposit is an account balance including cash accumulated in prior years. Pension, spending and vacation assumptions increase 2.5% annually. The individual scenario assumptions can be refined in the workbook.

Planning assumptions: Appendix A, page 25. Full retirement figures in 2026 dollars: Appendix H, page 37.

SAVINGS

Investment accounts from 2026 to 2042

Starting balances, then modeled year-end balances. SIPP shown in US dollars at $1.30 per £1.

Account	Return	Start	2026	2027	2028	2029	2030	2031	2032	2033
Trust	7%	$72,189	$72,943	$88,042	$104,831	$123,421	$143,975	$183,992	$196,872	$210,653

Existing deposit and CTP surplus earn 3.84%; from 2032 the existing deposit stays level and its interest is credited to CTP surplus.

From 2032, RMDs are withdrawn from the IRAs and traditional 401(k); the balances shown are after those withdrawals.

RMDs fund tax and spending; any cash surplus is added to the CTP surplus deposit. Through 2031, net RMDs go to the Trust account.

Starting account balances and return assumptions: Appendix G, page 36.

Home value and renovation

Starting at $1.45 million in 2026, the home is projected to appreciate by 4% a year. At the end of 2028, a $200,000 estimated renovation uplift is added to the then-current value. The combined amount reaches about $2.07 million by the end of 2032.

Renovation budget	2026	2027	2028	Total
Planned spending	$4,000	$52,000	$0	$56,000

The mortgage is scheduled to be paid off at the end of 2029. Home value is shown separately from the accounts available to fund spending.

Expense inputs and timing controls: Appendix B, pages 26-29.

Three sources of financial value

Illustrative 2032 values: investment accounts and home equity at year-end; pension value at the start of the year.

Investment accounts

$2,004,022

Includes the CTP surplus deposit; retirement balances are before withdrawal tax.

Home equity

$2,068,684

Estimated home value after the mortgage and HELOC are paid off.

Pension income value

$2,016,036

Present value of expected gross pension payments, including the modeled survivor benefit.

COMBINED ILLUSTRATIVE VALUE

$6,080,407

In 2032, gross pensions total $122,929: $95,775 US Social Security and $27,154 UK State Pensions.

The pension estimate assumes each lives to age 95, 2.5% annual pension increases and a 2% discount above inflation. It reflects the modeled survivor Social Security benefit; the benefit actually payable may differ. UK pensions stop on death.

Pension value represents income over time, not an account balance. Home equity is tied to the property. RMDs are not added to pension value because the retirement accounts are already included in investments.

Planning assumptions: Appendix A, page 25. Starting account balances: Appendix G, page 36.

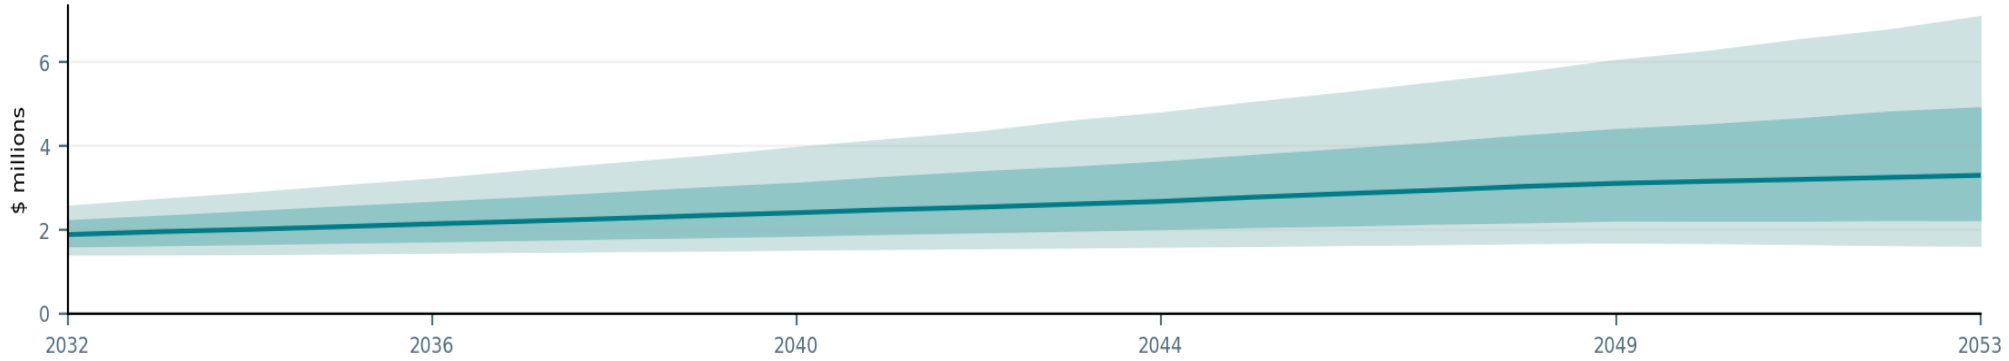

Monte Carlo through age 95

10,000 paths per scenario | Funded means spending and tax are met without using the home.

Compound target	Joint then Stacey	Ian alone	Stacey alone	Joint 10th pct.	Joint median
6.2% IRAs / 7% shares	100.00%	99.82%	99.83%	$2,286,320	$4,696,451
6% IRAs / 6.5% shares	100.00%	99.77%	99.75%	$2,093,702	$4,252,403
5% investments	100.00%	99.41%	99.16%	$1,646,332	$3,302,334
0% investments	98.89%	66.23%	56.90%	$237,177	$754,185

Joint, then Stacey | 5% compound investment target

10,000 / 10,000 funded

Median line; darker band: middle 50%; lighter band: middle 80%. Future dollars; retirement balances before withdrawal taxes.

Joint: both alive through 2049, then Stacey through 2053. Pensions and expenses rise 2.5% annually.

Working targets: IRAs 6.2%, shares and SIPP 7%; deposit 3.84%. Lower: IRAs / SIPP 6%, shares 6.5%.

Investment assumptions are compound targets; annual returns vary from 2027. The 0% case also varies.

Volatility: IRAs 12%, shares / SIPP 18%, BAC 30%. Returns are modeled estimates.

2027-31 other income and expenses are fixed; unexpected pre-2032 cash shortfalls are not simulated.

RMDs vary with account values; pre-2032 RMD tax uses an effective-rate approximation.

5% case, end 2032: median $1.89m; 10th-90th percentile $1.44m-$2.55m.

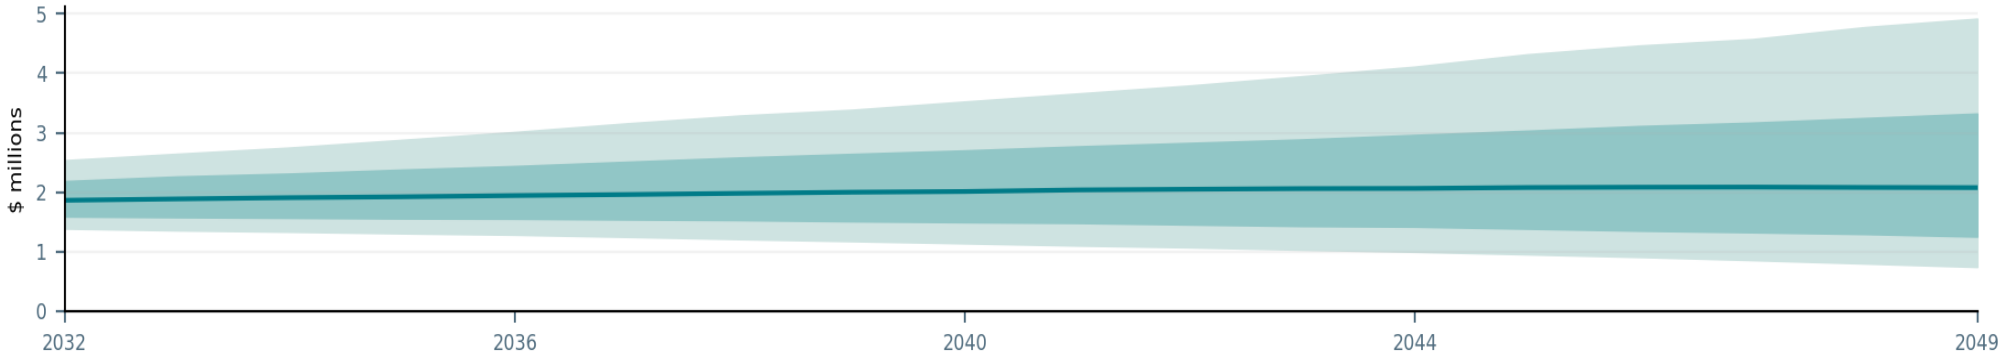

Planning assumptions and items to review: Appendix A, page 25.

If one of us is living alone

5% compound investment target | 10,000 paths | Through age 95

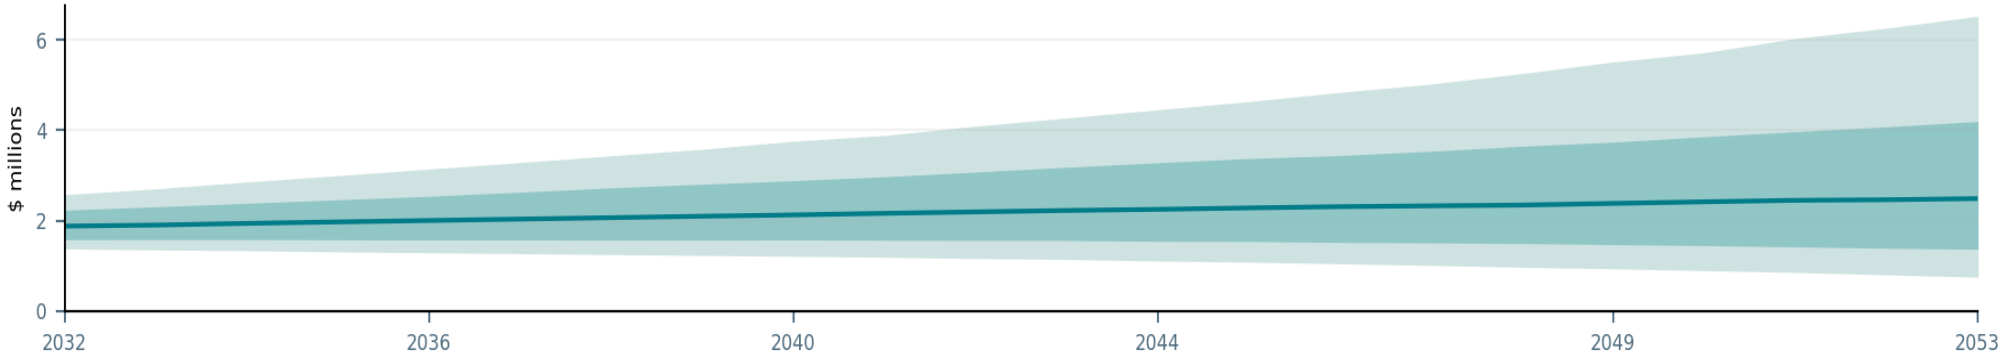

Ian alone from 2032

9,941 / 10,000 funded

Stacey alone from 2032

9,916 / 10,000 funded

Median line; darker band: middle 50%; lighter band: middle 80%. Funded means spending and taxes are met without using the home.
Ian reaches 95 in 2049; Stacey in 2053. Future dollars; retirement accounts before withdrawal taxes. Simulations are estimates.

Planning assumptions and items to review: Appendix A, page 25.

How we manage the plan

Use our existing accounts, keep the transition reserve separate and review progress regularly.

Organize the money

Household accounts. Continue receiving pensions and paying regular bills through our existing accounts.

Transition reserve. Keep the money for January–June 2029 separate and readily available. Build it with $500 a month in 2027 and $1,575 a month in 2028.

CTP surplus. Hold cash from the July payments in Preferred Deposit. Allow for tax and transfer what is needed for spending between payments.

Investments. Keep accounts identifiable as shown on page 14.
Reinvest net RMDs in the Trust through 2031; from 2032, withdrawals are available to support spending.

January 2027 action.

Earmark the reserve separately within the trust cash account.
In January add $5,100 to reserve and pay $2,400 extra HELOC principal.
Set up the monthly automatic transfers shown opposite.

Review at least quarterly through 2032

Income: Check Stacey's pay and the annual July CTP payments.

Spending: Compare spending with the budget, especially healthcare and home costs.

Cash: Check the reserve and cash needed before and between July payments.

Investments: Review balances, account mix and return assumptions.

Tax and benefits: Check Social Security, tax payments and RMDs against the forecast.

Either of us alone: Review the individual scenarios after material changes.

Monthly transfers to trust cash

Allocation	2027	2028
Transition reserve	$500	$1,575
Property tax	$1,083	$1,110
Car registration	$80	$82
Household buffer	$400	$410
Car servicing	$50	$51
Building work	$2,215	$0
Total per month	**$4,328**	**$3,228**

2028 HELOC principal and interest are paid from Joint; the building fund ends after 2027. Amounts shown are planning estimates.

KEY CHECKPOINTS

Pay particular attention before January 2029 and after each July payment.
Rename the groceries account "Groceries and gasoline" and increase its monthly transfer by $200.

Accounts: page 14. | Savings: Appendix I, page 38. | 2029 reserve: Appendix J, page 39. | Further actions: page 20.

Our plan and next steps

Our retirement picture and the actions that keep the plan on track.

2032 HOUSEHOLD BUDGET

$138,648

Includes $23,254 for vacations

2032 CASH SURPLUS

$27,806

After income tax and household spending

2032 INVESTMENTS

$2.00 million

Projected year-end balance; includes CTP surplus

Actions and timing

2027 | Pay and benefits
Check payslips, withholding and Stacey's February payment for January; confirm whether the quoted benefit includes COLA.

Cash | Throughout the transition
Keep working cash separate from the 2029 reserve. 2027 uses $250 from savings; check the PG&E true-up.

RMDs | Each year
Confirm the amount with Merrill; reinvest net proceeds through 2031, then arrange withdrawals to support spending.

After employment | 401(k)
Review a direct rollover; route traditional and Roth portions to appropriate accounts.

Before 2029 | Healthcare
Check each person's Medicare status; arrange Part B, Medigap and drug coverage as needed.

Medicare costs | IRMAA
Check income-related charges and whether a work reduction or stoppage supports a request for reconsideration.

2029-31 | July payments
Confirm each payment arrives, W-2 withholding and tax timing; retain cash for bills between July payments.

Survivor access | Review
Review each survivor's income and spending; check beneficiaries and access to IRA, 401(k), SIPP and Trust accounts.

THE PLAN HAS BEEN TESTED

In the updated 5% compound return simulation, all 10,000 joint paths funded the modeled plan through age 95 without using the house. Results use the current workbook and compound return assumptions.
Individual scenarios: pages 12-13 and 18.

This is a planning forecast; investment outcomes and future costs will differ from the assumptions.

Planning assumptions: Appendix A, page 25. | Appendix guide: page 24.

OUR TRANSITION

How cash flows change

Monthly averages; annual figures are divided by 12 and 2029 periods by six. January 2027 is exceptional.

Monthly average	2027	2028	Jan-Jun 29	Jul-Dec 29	2032
Income after tax / payroll	$20,284	$19,955	$9,954	$31,644	$13,871
Reserve / other funding	$21	$0	$4,663	$0	$0
Household spending	$15,362	$14,269	$13,587	$13,587	$11,554
Planned savings	$4,523	$5,275	$1,030	$1,030	$0
Cash surplus	**$420**	**$412**	**$0**	**$17,027**	**$2,317**

WHAT CHANGES

2027-28: Stacey is employed; net RMD proceeds are saved and the transition reserve is built.

Jan-Jun 2029: pensions and reserve withdrawals fund spending until the first July CTP payment.

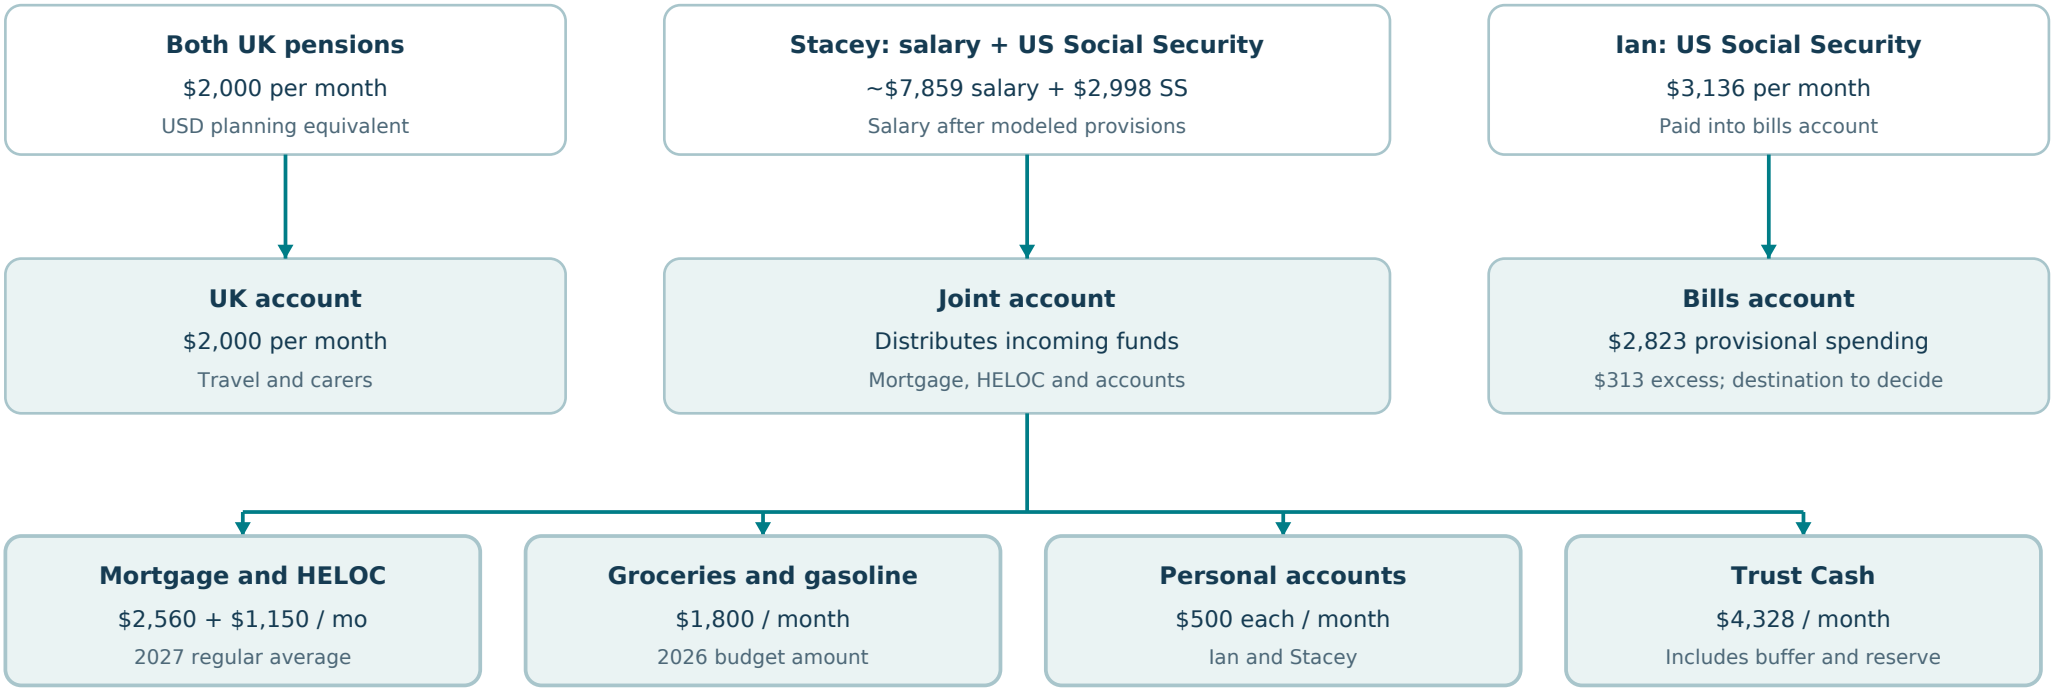

Jul-Dec 2029: the CTP arrives as a lump sum; its cash must cover bills between annual payments.

2032: pensions, RMDs and interest provide income; neither salary nor CTP payments continue.

2027 funding includes $250 from existing savings. Detailed account destinations remain to be confirmed.

How money moves between our accounts

2026 expense base | Normal February income | HELOC and reserve as planned

HOW THE AMOUNTS FIT

Bills: $3,136 Social Security less $2,823 provisional spending leaves $313; decide where the excess goes.

Joint: $2,560 mortgage + $1,150 HELOC + $1,800 groceries + $1,000 personal + $4,328 Trust = $10,838.

Recurring budgeted charges now on Amex are planned to move to Bills; the item list still needs confirming.

JANUARY 2027 January: $5,600 to transition reserve in total, plus an extra $2,400 to HELOC principal.

NEXT STEP Confirm which recurring Amex charges will move to Bills and where the $313 Bills excess will go. Bills holds no residual cash. Timing and actual amounts must be confirmed before setting transfers.

Salary starts at $17,122 gross; tax and payroll are planning allocations, not actual payroll withholding. January is shown separately.

February onward: joint income ~$10,857 less known outflows $10,838 = ~$19. Actual deposits and payment dates may differ.

Later-year account flows: Appendix N, pages 44-50.

2027 | Account-by-account monthly budget

UK ACCOUNT

Ian UK pension	+$1,000
Stacey UK pension	+$1,000
Travel	-$1,675
Carers	-$325
UK total remaining	**$0**

GROCERIES + GASOLINE

From joint	+$1,800
Food, wine and dining	-$1,600
Gasoline	-$200
Total remaining	**$0**

PERSONAL ACCOUNTS

Ian: from joint	+$500
Ian personal spending	-$500
Stacey: from joint	+$500
Stacey personal spending	-$500
Total remaining	**$0**

* Salary uses $205,469 / 12. Tax and payroll are annual planning allocations, with extra January pay assigned tax separately; actual withholding differs.

Stacey SS is the workbook estimate for a normal payment month, gross. Ian SS includes the workbook 3.6% COLA; confirm actual deposits.

** Bills are provisional: recurring budgeted charges currently on Amex are planned to move to Bills; confirm the item list and avoid double counting.

Transfers and bill dates matter: the bills account does not retain cash. Recology is quarterly; property tax, registration and building bills are irregular.

2027 transition: $5,600 in January including $500 monthly, then $500/month; $11,100 total. The $400/month buffer is included.

Later-year account flows: Appendix N, pages 44-50.

Assumptions and items to refine

Assumption	Treatment
Pensions	Stacey's January entitlement is paid from February; her forecast includes earnings increases and COLA. Ian's 2027 US benefit uses the model's 3.6% increase. The UK exchange rate is held constant.
General expenses	2.5% annual increase unless a specific exception or year override applies. 2026 is a provisional run-rate, not audited actual spending.
Healthcare	Both spouses: $1,200/month external budget in 2029, rising 2.5% annually. Extra medical / prescription allowance: $0 through 2028, provisional $100/month from 2029, then 2.5%. No separate surcharge allowance is added.
Vision and dental	Vision at no charge through the family optometrist; dental is paid from existing savings outside the ongoing expense allowance. Both ongoing input amounts are $0.
Vacations	$24,000 in 2027 for travel and carers, rising 2.5% annually; independent of UK pension income. Year overrides can reduce future travel.
Insurance and debt	UNUM $439/month in 2027, rising 5% annually; mortgage $2,560/month through 2029. HELOC opens at $15,000 in January 2027; projected payoff is September 2028.
Tax and RMDs	Joint tax liabilities/provisions, not a payroll withholding forecast. Future tax dollar parameters are planning estimates. Net RMD proceeds saved through 2031, spent from 2032.
CTP and RSUs	Two employment years, then $205,469 W-2 payments each July in 2029-2031. RSUs vest separately and are included in projected tax and the Bank of America stock holding.
Investment returns	IRAs modelled at 60% equities at 7% and 40% Treasuries at 5% (6.2% blended). Other share accounts: 7%. Preferred deposit and CTP surplus: 3.84%. Returns are nominal. Account details: page 36.

Inputs, units and annual increases - 1 of 3

Monthly and annual bill inputs are separate. A dash means that input column is unused; explicit $0 means a zero budget. Rates apply to the stated base year unless noted.

Expense / base input	Monthly amount	Annual amount	Annual increase	Timing and notes
Housing				
Mortgage and overpayment	$2,560	-	0.0%	$2,560/month through Dec 2029; includes overpayment.
Property tax	-	$13,000	2.5%	User confirmed $13,000/year; general inflation applies.
Home insurance	$200	-	2.5%	Review: Legacy amount.
Umbrella insurance	$40	-	2.5%	Review: Legacy amount.
HELOC payments	$1,000	-	0.0%	2027 opening $15,000; principal and interest; see page 42.
Property work				
Routine house maintenance	$0	-	2.5%	$0 base through 2031; 2032 override is $2,400/year.
Property work: maintenance + improvements	$2,000	-	2.5%	2026 base; $2,215/month to building fund in 2027.
Food and personal				
Food, wine and dining	$1,600	-	2.5%	Review: Legacy amount; includes chickens in later budgets.
Ian personal / household	$500	-	2.5%	Review: Confirm what house purchases this already covers.
Stacey personal	$500	-	2.5%	Review: Legacy amount.

Household miscellaneous buffer: $400/month at the 2026 base, increasing 2.5% annually.

Inputs, units and annual increases - 2 of 3

Monthly and annual bill inputs are separate. A dash means that input column is unused; explicit $0 means a zero budget. Rates apply to the stated base year unless noted.

Expense / base input	Monthly amount	Annual amount	Annual increase	Timing and notes
Insurance and healthcare				
UNUM life insurance	$439	-	5.0%	5% annual increase; stops after Dec 2029.
Healthcare base (2029)	$1,200	-	2.5%	2029 base for both spouses; included once in household spending.
Extra medical / prescriptions (2029 base)	$100	-	2.5%	2029 base. Free prescriptions through 2028; $100/month provisional from 2029.
Dental / vision out-of-pocket	$0	-	2.5%	Vision free through family; dental paid from savings; ongoing budget $0.
Transport				
Car insurance	$300	-	2.5%	Review: Legacy amount.
Car registration / DMV	-	$960	2.5%	Existing $960/year estimate retained by user.
Car servicing	-	$600	2.5%	Existing $600/year estimate retained by user.
Gasoline	$200	-	2.5%	User confirmed $200/month, with general inflation.
Fastrak / tolls	$25	-	2.5%	Tolls: $25 per month at the 2026 base, increasing 2.5% annually.
Utilities and services				
Cleaner	$420	-	2.5%	User corrected to $420/month.
Gardener	$260	-	2.5%	Review: Legacy amount.
PG&E	$50	-	2.5%	Review: Confirm whether annual true-up is covered by this allowance.
Water	$0	-	2.5%	Well water; no utility bill.
Trash	$111	-	2.5%	Review: Legacy amount.
Internet	$50	-	2.5%	Review: Legacy amount.
Cellphones	$144	-	2.5%	Review: Legacy amount.

Inputs, units and annual increases - 3 of 3

Monthly and annual bill inputs are separate. A dash means that input column is unused; explicit $0 means a zero budget. Rates apply to the stated base year unless noted.

Expense / base input	Monthly amount	Annual amount	Annual increase	Timing and notes
Subscriptions and leisure				
Wall Street Journal	$40	-	2.5%	Review: Legacy amount.
The Times UK	$15	-	2.5%	Review: Legacy amount.
Telegraph	$15	-	2.5%	Review: Legacy amount.
YouTube TV	$83	-	2.5%	Review: Legacy amount.
Britbox	$7	-	2.5%	Review: Legacy amount.
Apple TV	$13	-	2.5%	Apple TV estimated $13/month.
Duolingo Family	-	$120	2.5%	Annual family subscription, rounded standard price $120.
Yahoo email	$15	-	2.5%	Yahoo email new plan $15/month.
Apple storage	$6	-	2.5%	Review: Legacy amount.
Gym	$170	-	2.5%	Review: Legacy amount.
Vacations				
Travel and carers (2027 base)	-	$24,000	2.5%	2027 base; independent of pension income. Annual overrides available.

2026 bases: ChatGPT + Claude $40/mo; ArchAlpa $165/mo; Stacey music $200/mo; Costco $65/year; all increase 2.5%.

The controls behind the expense forecast

Control	Active treatment
Base year	2026 for normal household inputs; separate 2027 vacation and 2029 healthcare / extra-medical bases.
Property-work start / finish	$4,000 in 2026, then $52,000 of building bills in 2027; trust funds and HELOC finance the work.
Routine maintenance override	2032: $2,400 annual ($200/month), stated in 2032 dollars. Zero through 2031.
HELOC	January opening $15,000; $1,000/month principal plus $2,400 extra in January; interest separate. Building fund is applied to the HELOC in 2028; projected payoff is September 2028.
Transition reserve	Opening $0. Save $500/month plus $5,100 extra in 2027; $1,575/month in 2028. Withdraw for Jan–Jun 2029 spending; approximately $2,020 remains.
RMD savings end year	2031. Net RMD savings are zero from 2032; RMDs are then spendable.
Vacations	Base $24,000 in 2027. Annual overrides presently blank; default 2.5% annual growth applies.
Other project overrides	2028 building allocation is redirected to HELOC repayment; no new building bills modeled.
Medical allowance first year	2029. Prescriptions assumed free under the employer plan through December 2028.
Tolls / dental / vision	Tolls $25/month at the 2026 base; dental and vision are set to $0.
Missing recurring expense amounts	Workbook count is zero; some entered amounts remain planning estimates.

Zero is a budget decision, not evidence that a cost can never occur. Dental work, exceptional repairs or other unbudgeted purchases would use the remaining surplus or existing savings. The current report does not add an unspecified reserve for those items.

Individual household expenses

Monthly averages in each period. Food subtotal includes the separate household miscellaneous buffer.

Expense	2026	2027	2028	Jan-Jun 2029	Jul-Dec 2029	2030	2031	2032
Housing								
Mortgage and overpayment	$2,560	$2,560	$2,560	$2,560	$2,560	$0	$0	$0
Property tax	$1,083	$1,083	$1,110	$1,138	$1,138	$1,167	$1,196	$1,226
Home insurance	$200	$200	$205	$210	$210	$215	$221	$226
Umbrella insurance	$40	$40	$41	$42	$42	$43	$44	$45
HELOC payments	$167	$1,350	$2,230	$0	$0	$0	$0	$0
Housing subtotal	$4,050	$5,234	$6,147	$3,950	$3,950	$1,425	$1,461	$1,497
Property maintenance and improvements								
Routine house maintenance	$0	$0	$0	$0	$0	$0	$0	$200
Property work: maintenance + improvements	$333	$2,215	$0	$0	$0	$0	$0	$0
Property maintenance and improvements subtotal	$333	$2,215	$0	$0	$0	$0	$0	$200
Food and personal spending								
Food, wine and dining	$1,600	$1,600	$1,640	$1,681	$1,681	$1,723	$1,766	$1,810
Ian personal / household	$500	$500	$512	$525	$525	$538	$552	$566
Stacey personal	$500	$500	$512	$525	$525	$538	$552	$566
Food and personal spending subtotal	$3,000	$3,000	$3,075	$3,152	$3,152	$3,231	$3,311	$3,394

Buffer above: $400/month in 2027, $410 in 2028, then 2.5% annual increases.

Individual household expenses (continued)

Monthly averages in each period. These are the individual expense lines from the workbook; group subtotals reconcile to the household spending total.

Expense	2026	2027	2028	Jan-Jun 2029	Jul-Dec 2029	2030	2031	2032
Transport

2026 bases: ChatGPT + Claude $40/mo; ArchAlpa $165/mo; music $200/mo; Costco $65/year. Carers $325/mo offset travel.

How the joint tax provision is calculated

Annual USD	2026	2027	2028	2029	2030	2031	2032
US Social Security gross	36,324	70,610	78,211	83,078	88,219	91,947	95,775
US Social Security federally taxable	30,875	60,018	66,479	70,617	74,986	78,155	71,551
Taxable RMD income	0	14,485	15,401	16,309	17,268	43,393	46,078
Federal AGI	365,184	294,220	293,066	339,093	354,607	354,587	144,783
Federal taxable income	329,684	257,620	255,550	300,640	315,192	314,188	103,374
Federal income tax	64,320	46,547	45,668	56,098	59,189	58,537	11,826
California taxable income	322,897	222,790	214,890	256,487	267,332	263,835	60,320
California income tax	22,295	12,985	12,056	15,726	16,531	15,999	281
Combined income tax	86,615	59,532	57,724	71,824	75,721	74,535	12,107
RMD-attributable tax (included above)	0	4,823	5,128	5,431	5,750	14,450	10,294

Three distinctions

Taxable Social Security is not an 85% tax rate. The model calculates the share of benefits included in federal taxable income, then applies the ordinary brackets. California excludes US Social Security. UK State Pensions remain in the model's federal and California taxable income.

RMD tax is an allocation within the household total. Incremental tax is the difference between the full calculation and the same calculation without RMD income. Net RMD savings are gross proceeds less that tax; no second tax deduction is added.

Liability differs from withholding. Figures are joint tax provisions. The annual-payment cash calendar reserves the extra CTP-year income tax in July; payroll withholding and final settlement may be timed differently. Future-year tax parameters remain estimates.

APPENDIX E | ANNUAL RECONCILIATION

From income to cash surplus

Annual USD; 2029 is split to make the reserve and the July payment visible.

Annual amount	2026	2027	2028	Jan–Jun 29	Jul–Dec 29	2030	2031	2032
Gross income before interest	$374,637	$335,320	$325,306	$63,043	$268,512	$337,840	$368,379	$169,007
Deposit interest	$0	$0	$0	$0	$2,244	$6,144	$10,653	$14,425
Income and payroll costs	$136,037	$91,909	$85,843	$3,321	$80,889	$86,166	$96,472	$16,977
Income after taxes / payroll	$238,600	$243,411	$239,463	$59,723	$189,867	$257,818	$282,560	$166,454
Funding from reserves	$0	$250	$0	$27,980	$0	$0	$0	$0
Total cash available	$238,600	$243,661	$239,463	$87,702	$189,867	$257,818	$282,560	$166,454
Household spending	$146,973	$184,342	$171,225	$81,521	$81,521	$129,683	$132,925	$138,648
Planned savings	$32,622	$54,279	$63,298	$6,181	$6,181	$12,557	$30,022	$0
CASH SURPLUS	$59,006	$5,041	$4,939	$0	$102,164	$115,578	$119,613	$27,806

Cash available = income after taxes and payroll + reserve funding. Cash surplus = cash available − spending − savings.

2029 funding is a withdrawal from existing savings, not new income. Amounts include tax on deposit interest and may not add due to rounding.

Page 7 excludes RSU-funded withholding from both income and payroll costs; income after tax is the same.

Company deductions and separate vesting

2027 benefit deduction	Per period	Annual budget
Medical before credit	$646.56	$15,517
Dental	$42.74	$1,026
Vision	$7.35	$176
AD&D;	$12.02	$288
LTD	$28.52	$684
Spouse insurance	$7.75	$186
Benefits-summary subtotal	$744.94	$17,879
Separate individual disability	$39.32	$944
Medical credit	($41.66)	($1,000)
TOTAL COMPANY BENEFITS	$742.60	$17,822

Annualisation retains 24 deduction periods. The 2028 forecast keeps these amounts. The separate $39.32 disability line is included in both years; its exact policy description remains unresolved. Supplemental associate life, parking and BDA do not continue in 2027. All company deductions end after December 2028.

RSUs are included in the forecast

Vesting year	Gross vesting amount
2027	$10,000
2028	$20,000
2029	$20,000
2030	$30,000

Future vesting is included in taxable compensation; shares retained after estimated tax build the separate BAC holding.
The 2026 RSU proceeds went toward the HELOC; the January 2027 opening balance is $15,000.

Starting accounts and return assumptions

Balances provided for the 2026 starting point; modeled annual nominal returns.

Account	Starting balance	High	Working	Lower
Joint trust brokerage	$72,189	8.0%	7.0%	6.5%
Merrill Preferred deposit	$20,994	3.84%	3.84%	3.84%
Ian IRA	$380,319	7.0%	6.2%	6.0%
Stacey IRA	$456,000	7.0%	6.2%	6.0%
Stacey 401(k) opening balance (Roth)	$10,000	8.0%	7.0%	6.5%
Ian SIPP	£92,000	8.0%	7.0%	6.0%
BAC stock	$0	—	7.0%	—
CTP surplus deposit	$0	—	3.84%	—

The SIPP is converted at $1.30 per £1. The existing deposit earns 3.84% in every case.

In 2027 and 2028, annual 401(k) additions are $33,500 traditional (including employer) and $8,000 Roth.

Net RMDs are reinvested in brokerage through 2031; from 2032 they are available for spending.

The CTP surplus deposit is included separately in the later assets forecast; its interest uses the tax model.

Monte Carlo charts use their own stated assumptions and are fixed snapshots, not automatic recalculations.

Source: Retirement_Plan_V6.xlsx , saved calculations. Rerun simulations

after material changes to account balances, rates, spending or tax assumptions.

BAC stock: starts at $0; future shares retained. Working return 7%; simulation volatility 30%. Tax on stock sales is not modeled.

The same forecast in 2026 purchasing power

Amounts are converted to 2026 dollars using the plan’s 2.5% annual inflation assumption.
These figures show the purchasing power of the main retirement forecast.

Year	Gross income	Income tax	Household spending	Vacations included	Cash surplus
2032	$158,172	$14,639	$119,556	$20,052	$23,977
2033	$160,122	$15,146	$119,556	$20,052	$25,420
2034	$162,151	$15,674	$119,556	$20,052	$26,922
2035	$164,053	$16,168	$119,556	$20,052	$28,329
2036	$166,227	$16,734	$119,556	$20,052	$29,938
2037	$168,377	$17,292	$119,556	$20,052	$31,529
2038	$170,722	$17,902	$119,556	$20,052	$33,264
2039	$172,872	$18,461	$119,556	$20,052	$34,855
2040	$175,236	$19,088	$119,556	$20,052	$36,592
2041	$177,491	$19,720	$119,556	$20,052	$38,215
2042	$179,817	$20,371	$119,556	$20,052	$39,890

The household budget remains level in purchasing power because all spending categories are assumed to rise at the same 2.5% rate.

How we save through the transition

Monthly averages for each period. Retirement contributions, net RMD transfers and the transition reserve are separate purposes. Cash surplus is after all planned savings and includes deposit interest and its tax.

Monthly average	2026	2027	2028	Jan-Jun 2029	Jul-Dec 2029	2030	2031	2032
Traditional 401(k)	$1,569	$2,042	$2,042	$0	$0	$0	$0	$0
Roth 401(k)	$1,139	$667	$667	$0	$0	$0	$0	$0
Other income retained in savings	$10	$87	$136	$124	$124	$87	$95	$0
Net RMD savings to brokerage	$0	$805	$856	$906	$906	$960	$2,412	$0
Transition-reserve contributions	$0	$925	$1,575	$0	$0	$0	$0	$0
Total planned savings	$2,718	$4,523	$5,275	$1,030	$1,030	$1,046	$2,507	$0
Cash surplus	$4,917	$420	$412	$0	$17,027	$9,631	$9,968	$2,317

Timing of the commitments

HELOC opens at $15,000 in 2027; extra $2,400 paid in January. Projected payoff: September 2028.
Mortgage payments, including the $1,000 monthly overpayment, end in December 2029.

Net RMDs are transferred to brokerage through 2031. The transition reserve funds early 2029, leaving about $2,020. Unallocated cash is held on deposit, separate from these planned savings.

How the transition reserve is used

Monthly cash timing: pensions continue; the first CTP payment arrives on 1 July.

THE RESERVE BEFORE JULY

$30,000 saved in 2027·28

Month	Pensions	CTP gross	Reserve funding	Transition reserve left
Jan	$9,024	$0	$4,663	$25,337
Feb	$9,024	$0	$4,663	$20,673
Mar	$9,024	$0	$4,663	$16,010
Apr	$9,024	$0	$4,663	$11,347
May	$9,024	$0	$4,663	$6,683
Jun	$9,024	$0	$4,663	$2,020
Jul	$9,024	$205,469	$0	$2,020
Aug	$9,024	$0	$0	$2,020
Sep	$9,024	$0	$0	$2,020
Oct	$9,024	$0	$0	$2,020
Nov	$9,024	$0	$0	$2,020
Dec	$9,024	$0	$0	$2,020

The first six months require approximately $4,663 a month from the reserve; approximately $2,020 remains.

The July payment is gross. Taxes, spending and net RMD savings are budgeted separately; cash is retained for later bills.

2027 income and essential outgoings

Monthly amounts are planning allocations; see Appendix A (page 25) before using these as payment dates.

HELOC: $15,000 opening; 6.84% annual interest is paid separately; building draws are included in the balance.

February credit is $5,200 (the £4,000 travel fund at $1.30/£); Asia charges $9,000 February / $2,000 March are estimates.

Cash position excludes other opening cash; card dates unconfirmed. This monthly scenario uses the workbook's separate timing assumptions.

HOW TO READ THE SCHEDULE

2027: The trust receives $2,215 monthly; January principal includes an extra $2,400 payment.
Bills of $3,000 / $22,000 / $20,000 / $7,000 fall in Jan / Apr / Jul / Oct. Interest uses 6.84%, with draws at the start of each month.
2028: January principal includes the $4,430 remaining in the trust plus $3,000; then $3,000 monthly until payoff. Interest is extra.

Illustrative timing; actual payment dates and rates will change interest. Amounts rounded; 2027 interest totals about $1,804.

Contingencies to revisit together

For a future review. The amounts below are proposed stress-test inputs and reserve targets. The base forecast continues to use its current assumptions.

01 | Plan for sustained care

Give paid care its own line, separate from travel. Test either of us needing help at home while the other is still alive. For illustration, $4,000 per month in additional care for two years is $96,000 before any reduction in travel. Keep shared housing costs and identify what the deposit and investments would cover.

02 | Allow for a longer 2029 gap

Appendix J earmarks $30,000 and projects $27,980 of withdrawals before July. The $2,020 left covers less than one more month at $4,663. Consider about $37,000 for the planned gap plus two months. Confirm each person’s employer coverage end date, Medicare start date and any income-related premium surcharge.

03 | Prepare for an earlier disruption

Test a death or inability to work in 2028 or early 2029, while the mortgage and CTP payments still matter. Check what the agreement says about remaining payments and unvested RSUs. Record who can manage bills, taxes, the Trust and SIPP, and who can arrange care if either of us cannot act.

04 | Set aside money for major costs

List a major home repair, vehicle replacement and dental work separately. Decide how much to earmark and where to keep it, so the same cash is available for only one purpose. Review spending if a care need, coverage change, delayed payment or major repair would draw down the transition reserve.

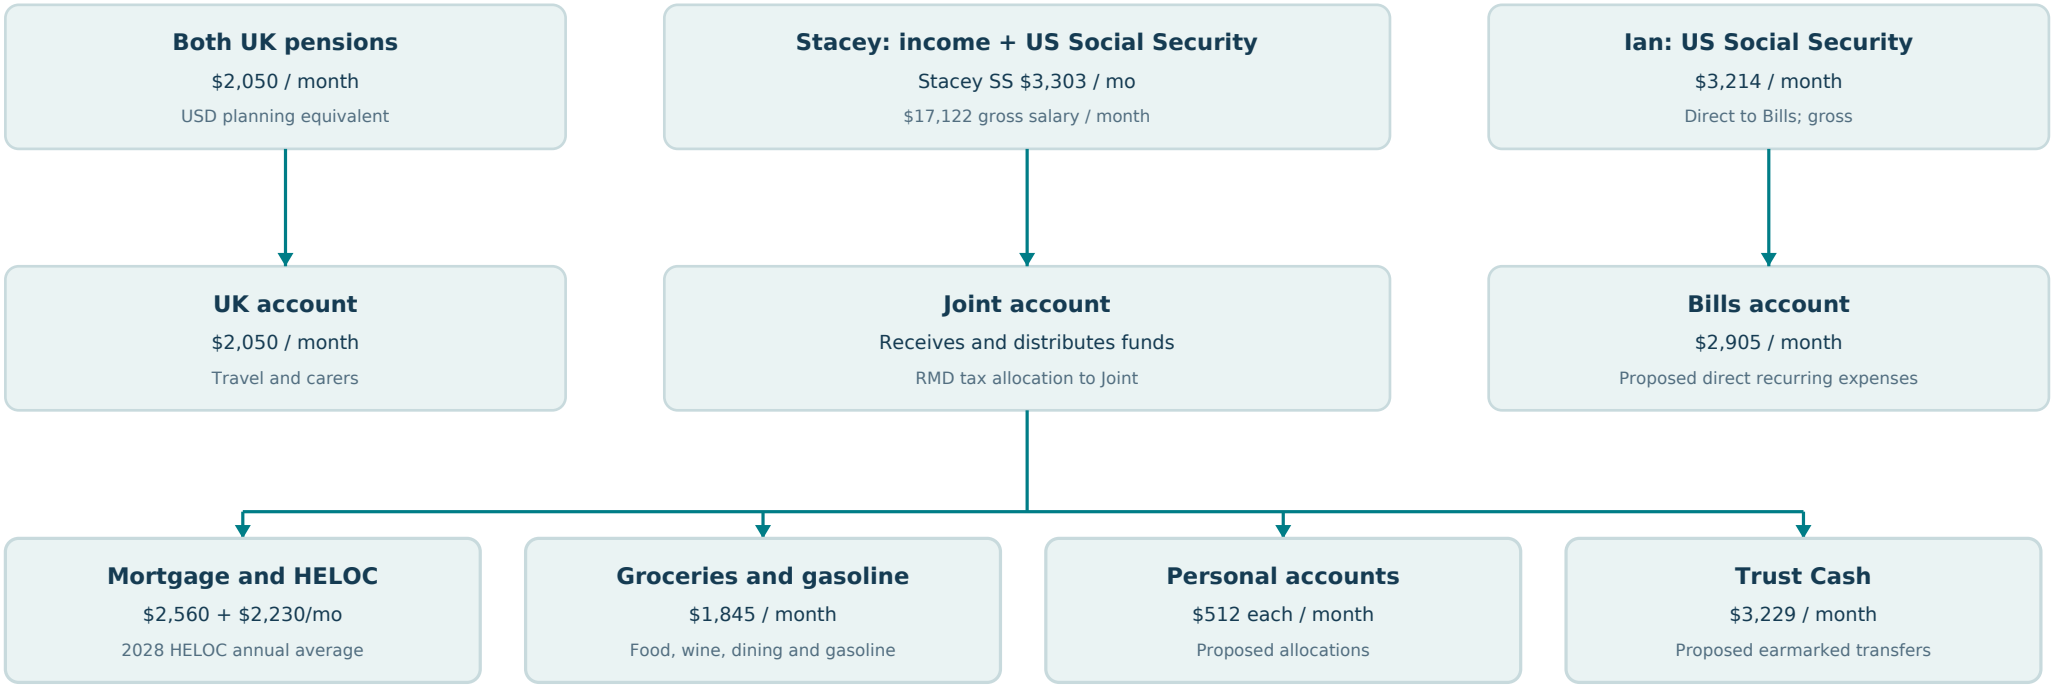

HELOC | Confirm the payoff path at the next review

The forecast models $52,000 of 2027 building bills and HELOC payoff in September 2028. Appendix L shows the monthly building draws, interest and repayment schedule.

Related pages: survivor budgets 12-13, actions 20, transition reserve 39, HELOC scenarios 40-42.

2028 | How money moves between accounts

Monthly averages in projected dollars. Transfers marked proposed need agreement before autopay.

HOW THE AMOUNTS FIT

Salary gross $17,122/month; retained net RMD is saved to brokerage. Actual pay and withholding will vary.

Reserve $1,575/month is included in Trust Cash. HELOC ends in September; $2,230/month is the annual cash average.

Bills excess is proposed to return to Joint because Bills does not retain cash; actual transfer routing is undecided.

The detailed page follows. Individual bills are planning amounts, not confirmed bank mandates.

Tax and payroll are household provisions. Timing, payment source and actual balances may differ.

All amounts are monthly averages; regular and irregular payments need timing checks. Rounded figures may differ by $1.

Bills excess is shown returning to Joint solely as a proposal; confirm actual bank routing. Bills does not retain cash.

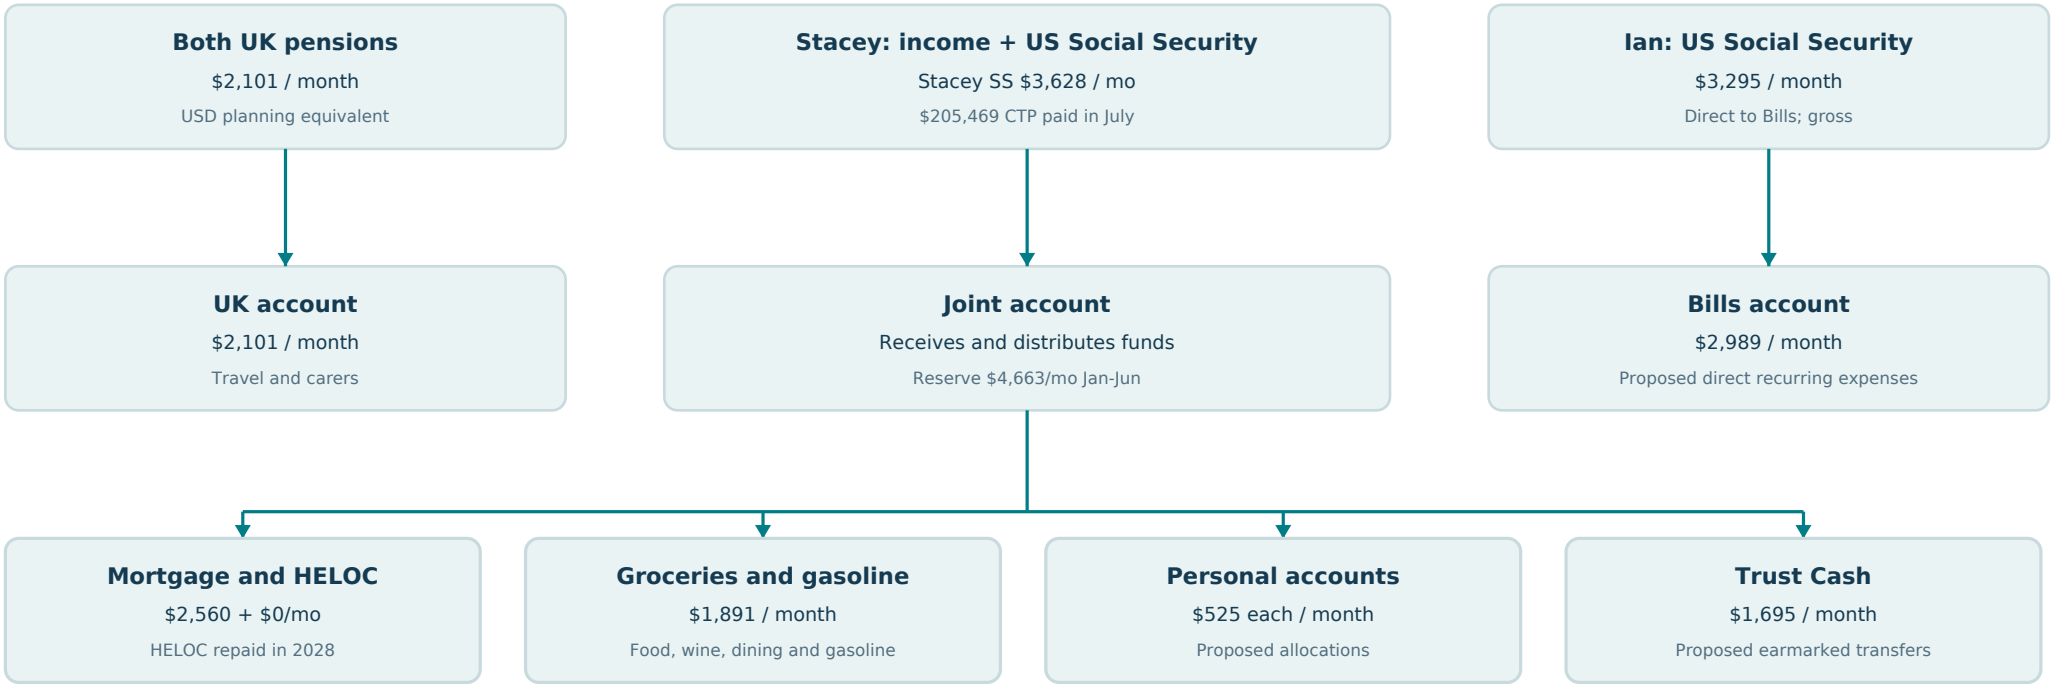

Household taxes are allocated to Joint for illustration; actual withholding and settlement may occur elsewhere.

Gross CTP is shown as a six-month average in July-December; it is paid once in July, not monthly.

Reserve funding and RMD tax allocation are proposed transfers. Net RMD and existing deposit interest are retained separately.

2032 | How money moves between accounts

Monthly averages in projected dollars. Transfers marked proposed need agreement before autopay.

HOW THE AMOUNTS FIT

No salary or CTP payment in 2032. Both RMDs are available to support spending; destinations are proposed.

Deposit interest stays in the deposit in this illustration. Joint tax provision covers the household, not just salary.

The Bills excess is proposed to return to Joint because Bills does not retain cash. Review transfer amounts.

The detailed page follows. Individual bills are planning amounts, not confirmed bank mandates.

Tax and payroll are household provisions. Timing, payment source and actual balances may differ.

2032 | Account-by-account monthly budget

Individual expenses and proposed transfers; projected monthly averages, not instructions to banks.
